

To whom it may concern,

I would like to reply to the statement made by the White Lake School District. I arrived at the school at 4:35 pm on January 5th 2021. The School official at the office took my application for candidacy, replied to me looks good and you should be all set. There was no mention to me of it needing to be notarized until the later date of January 20th. Which at that time they only asked me to get it notarized still no mention that there was an issue with my acceptance. If I had been informed at the time I turned my application in that it was not fully completed, it could have potentially been remediated or it's also my understanding that if the school had someone qualified on site an oath could have been administered. None of this was offered.

Thank you,

Jason Nickolai
