ITEMS OF INTEREST: Had to draw down one ballot (*Exhibit #1*) – there was one ballot more than voters. 1 voter was given wrong TSX ballot; poll worker thought the ballot was cancelled but wasn't; given another TSX ballot. Was NOT voter fraud. It was poll worker ERROR. Ballot drawn was for Prosser.

Total Number of Absentee Ballots Identified:	5	(10 absentees were recreated at the polls, so there is no way to differentiate them from other absentees)

Items of Note:

There were 172 voters in the poll book and 173 ballots. The machine said it counted 168 ballots, and the Board hand-counted 4 by hand, which would have made a total of 172 ballots (one under the actual total). For Wards 2&5 (below), the machine said it counted 269 ballots, but it read 270. There was something wrong with the coding of 2 ballots to make them appear in the wrong totals. The ballot totals for the entire City of Brillion came out exactly, but there was either a wrong ballot given to an elector or the coding was incorrect. The Board did not draw down because they looked at the total ballots in the City opposed to reporting units as all reporting units had the same race for Justice of the Supreme Court and the Board didn't want to disenfranchise any voters.
