

Dane County Recount Minutes

The Dane County Canvass Board convened at 9 a.m. on Wednesday, April 27, 2011, in room 354 of the City-County Building, 210 Martin Luther King Jr Boulevard.

The Dane County Canvass Board completed the recount at 8:00 p.m. on Saturday, May 7, 2011

Office to be Recounted: Supreme Court Justice

Original Result: Prosser 48,636 votes, Kloppenburg 133,565 votes

Dane County Canvass Board Members: County Clerk Karen Peters, Gretchen Lowe, Joyce Waldrop

Tabulators: Dane County Municipal Clerks, Chief Inspectors and Election Officials were used as tabulators for this recount.

Security: Only two keys exist for this room. County Clerk Karen Peters holds one key, and Judy Nowak of the County Clerk's Office holds the other key. Dane County Facilities Management does not have a key to this room.

Municipal clerks kept all election materials secured in their municipality prior to delivering their poll books, ballots, absentee certificates, and absentee requests to the Dane County Clerk's Office on Friday, April 22, and Monday, April 25, 2011. The County Clerk kept these materials secure in the County Clerk's Office and vault until the County Clerk secured them in room 354 of the City-County Building the afternoon of Tuesday, April 26, 2011.

To accommodate space restraints, ballots for the City of Madison were kept secure in the Madison City Clerk's Office storage facility at the Village on Park until transported directly to room 354 of the City-County Building by City Clerk's Office personnel the day before they would be recounted. City of Madison poll books, absentee certificates, and absentee requests were kept secure in the Madison City Clerk's Office until transported directly to room 354 of the City-County Building by City Clerk's Office personnel the day before they would be recounted.

Methodology: Tabulators followed the following steps for each reporting unit throughout the process:

- Ballot container seal numbers are compared to the Chief Inspector's Statement and any discrepancies are noted for the minutes.
- All ballots are sorted in order to separate the apparent absentee ballots. In Dane County, Municipal Clerks are asked to mark their absentee ballots with a red stamp reading "Absentee." Absent such a mark, tabulators make a determination if there is evidence that a ballot has been folded and bears the initials of the Municipal Clerk.
- The non-absentee ballots are separated into one pile for each candidate. Undervoted, blank, write-in or irregularly marked ballots are segregated for review by the Board of Canvassers.

- The stacks of ballots bearing undisputed votes for each candidate are, in full view of the candidates' representatives, counted into smaller stacks of 25, criss-crossed to avoid admixture, which are then reviewed by a second tabulator to verify that there are 25 ballots in each smaller stack. At the same time, the tabulator verifies that the mark on each ballot is for the correct candidate.
- Next, each stack of 25 is checked again by a different tabulator, who inspects the ballots to ensure that they bear the initials of two election inspectors. If any are found to be missing one or both sets of initials, the ballot is set aside pending verification that there are not more ballots than voters. The type and number of these irregularities are noted in the minutes.
- Stacks of 25 are combined into stacks of 100, criss-crossed, and tallied along with any remainder stacks.
- Absentees are counted in an identical manner at a separate table.
- Any paper ballots which were hand counted are treated the same way and then added to the "regular" ballot total.
- At the absentee table, any remade ballots are compared to their originals to verify the accuracy of the duplication.
- The total number of absentee and regular ballots cast is verified.
- The number of regular, absentee and write-in or irregular ballots for each candidate is then added together by the Board of Canvass to obtain the final tally.
- All materials are re-sealed in new ballot containers with new seal numbers which are noted in the minutes.

Notification: The Dane County Clerk's Office posted its public notice of this recount on Monday, April 25, 2011, at noon.

Date: Wednesday, April 27, 2011

Canvass Board Convened at: 9 a.m.

Canvass Board Members: County Clerk Karen Peters, Gretchen Lowe, Joyce Waldrop

Other Personnel – **Chief Inspectors:** David Cobb (City of Madison), Marilyn Williams (City of Madison), Baxter Exum (City of Madison), Duane Steinhauer (City of Madison)

Other Personnel –Municipal Clerks: City of Fitchburg Clerk Linda Cory, City of Monona Clerk Joan Andrusz, City of Madison Clerk Maribeth Witzel-Behl, Town of Madison Clerk Renee Schwass, Town of Verona Clerk Amy Vokman, Retired County Clerk Bob Ohlsen

Other Personnel – Recording Secretaries from the Madison City Clerk's Office: Elena Berg, Thomas Lund, Eric Christianson, Wendy Barton, Jean Phelps, Chris LeMay, and Mike Quieto. Personnel from County Clerk's Office, Judy Nowak.

Others Present: Craig Swenson, Deborah Elsas, Chris T Troupis, Brad Oyen, Cameron Shorty, Dianne Greenley, Joan Strasbaugh, Mojgan Hall, Diane Broughman, Connie O'Connell, Brian Murray, Mary Mullen, Marianne Daggett, Jim Kerr, Steven Brist, Gil Halsted, Christine Taylor,

Jason Smathers, Bernard Verius, Elspeth Munsall, Jeremy Nichols, Adam Gallagher, John Colbert, Jeremy Hedit, Judi Smith, Ronald Betlach, Karen Muga, Joan Andrusz, Steve Andrusz, Winifred M Lacy, Patti Anderson, David McCarthy, Marilyn Franke-Lemens, Leland Lemens, Steve Verburg, Norman Stockwell, Andrea Zibell, John Finkler, Brian Dake, Katherine Gerard, Zac Schultz, Bruce Garner, Marcia MacKenzie, Rachel Potter, Jessica Arp, Dustin Weis, Bill Fenske, Mark Schilling, Timothy Yu, Jeff Kravat, John Hart, Heather Diehl Reames, Lori Dahlhauser, Christine Zamber, Nancy Griswold, Mary McNicholas, Joel DeSpain, Carlos Pabellon, Leonard Black, Tim Newport, Mary Ann Brocon, Mary G. Jenny, David De Felice, Nathan Johnson, Georgia Johnson, Sharon Goetz, Mary O'Connor, Brian Pruka, Jason Weiss, Tony Galy, Paul Schmidt, Melissa Mulliken, Derek Staahl, Matt Hina, Molly Stentz, Edward Kutharski, Bill Lueders, Andrew Averill, Judith Torres, Todd Richmond, Emma Czarapatce, Mary Lalinme, Analiese Eicher, Christine Wolf, Jennifer Arzl, Cameron Sholdy, Arlene Silveira, Shelley Anthony, Dan Stevens, and Danold Lowe.

Municipality: City of Fitchburg	Reporting Unit: Wards 1-3
Original Vote Totals for Reporting Unit: Prosser 326 votes Kloppenburg 978 votes	Number of Voters from Registration List: 1314
Number of Absentee Ballot Applications: 80	Number of Absentee Ballots: 80

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- The County Clerk reviewed the process that will be followed and the rules for the observers.
- Karen Peters introduced the Board of Canvassers.
- City of Fitchburg submitted a chain of custody for all election materials.
- Tabulators verified that the seals on the ballot bags matched the seal numbers on the Inspector's Statement. There were no objections.
- The seventeen (17) regular absentee certificates were matched to their absentee requests.
- Canvassers determined five (5) write-ins as votes for Kloppenburg. There were no objections.
- The ballots were sealed in bags with seal numbers 0663641, 0663690 and 0663680.
- The Tabulators identified 79 ballots marked Absentee.
- The 80th Absentee ballot was determined by the Canvassers to be a re-made ballot that was not stamped or marked Absentee. There were no objections.
- There is one Absentee ballot without the Clerk's initials which the Canvassers determined to be a clerical error. There were no objections.
- One (1) more vote was counted for Kloppenberg and one more vote was counted for Prosser than was counted on Election Day.
- The Board of Canvassers determined that two ballots must have been marked with a ball point pen. There were no objections.

Number of Absentee Ballot Applications: 294	Number of Absentee Ballots: 294

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Fitchburg submitted a chain of custody for all election materials.
- Board of Canvassers counted 294 absentee certificates, 291 were listed on the Inspectors' Statement. The absentee log showed 294. The Board of Canvassers determined this was a counting error by the Chief Inspector. There were no objections.
- The thirty (30) absentee certificates were matched to their absentee requests.
- A ballot had no clerk initials, this was ruled a clerical error. There were no objections.
- Three ballots had no inspectors initials, this was ruled a clerical error. There were no objections.
- One ballot had one inspector's initials. The Board of Canvassers ruled this was a clerical error. There were no objections.
- On the inspectors' statement, the bag seal numbers were not written in, however the bags were sealed. There were no objections.
- One (1) more vote was counted for Kloppenburger than was counted on Election Day.
- 7 absentee voter slip numbers were recorded on the City poll book and not on the County poll book.
- The ballots were sealed in bags with seal numbers 0663668, 0663669, 0663659 and 0663679.

Recess at 4:47 p.m. for 30 minutes.

Municipality: City of Stoughton	Reporting Unit: Wards 1-3
Original Vote Totals for Reporting Unit: Prosser 264 votes Kloppenburg 700 votes	Number of Voters from Registration List: 968
Number of Absentee Ballot Applications: 81	Number of Absentee Ballots: 84
Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)	
<ul style="list-style-type: none"> • City of Stoughton submitted a chain of custody for all election materials. • The Tabulators verified that the seals used on the ballot containers matched the seals listed on the Inspectors' Statement. There were no objections. • One (1) voted ballot contained only one set of election official initials. There were no objections. • One absentee ballot was correctly rejected on election day for lack of the voter's signature. There were no objections. • Three absentee enveloped could not be matched to their applications. However, a review of the records demonstrated that they were issued and returned in the Municipal Clerk's office. There were no objections. • Upon initial review, the number of ballots exceeded the number of voters by 5 (973 vs 968). Tabulators reviewed the number to total ballots checking for ballots with erroneous header codes. Upon review, a stack of 20 ballots had been assumed to 	

have 25 ballots, thus the number of ballots and voters matches perfectly. There were no objections.

- There was one more apparent absentee ballot than absentee envelopes, however since the total number of ballots does not exceed the total number of voters, no additional action need be taken. There were no objections.
- The ballots were sealed in bags with seal numbers 0663647 and 0663638.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Stoughton submitted a chain of custody for all election materials.
- The Tabulators verified that the seals used on the ballot containers matched the seals listed on the bag, but the seals numbers were not documented on the Inspectors' Statement. The bags were nonetheless securely sealed and thus were opened and tabulated. There were no objections.
- The number of absentee envelopes matches the number of absentee ballots reported on the Inspector's Statement on Election Day. The three envelopes requiring an original application were matched to their respective applications. There were no objections.
- One ballot bore the "absentee" stamp, but had not been folded and bore the initials of two election inspectors rather than those of the municipal clerk and was thus deemed to be a regular ballot. There were no objections.
- Two apparent absentee ballots were found to be blank. There were no objections.
- All ballots were resealed in new bags bearing seal numbers 0663639 and 0663640.

Recess at 11:33 a.m.

Municipality: City of Verona	Reporting Unit: Wards 1-4
Original Vote Totals for Reporting Unit: Prosser 596 votes Kloppenburg 1087 votes	Number of Voters from Registration List: 1711
Number of Absentee Ballot Applications: 226	Number of Absentee Ballots: 229

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Verona submitted a chain of custody for all election materials.
- The seal number listed on the Inspectors' Statement did not correspond with any of the seals used on the ballot bags. There were no objections.
- The seal on the ballot bag and the number on the ballot bag matched, this number was not written on the Inspectors' Statement.
- In the rejected absentee envelope certificate the inspectors had placed a ballot they had remade. This should have been in an envelope marked "Ballots to be Remade" and there was no identifying mark to match it to the remade ballot. There were no objections.
- Three absentee certificates did not have a corresponding application. There were no objections.
- There were a total of 229 absentee ballots, and a total of 229 absentee certificates, but only 220 marked on the Inspectors' Statement. There were no objections.
- Six absentee ballots without initials, one without the stamp. There were no objections.
- Three blank absentee ballots. There were no objections.
- One ballot with only one set of initials.
- Ten blank ballots. There were no objections.
- Three voters were recorded as absentee in one book that were recorded as regular in the other poll book. Tabulators verified that these voters were absentees.
- 11 absentee ballots were marked with a Sharpie marker rather than the proper ballot pen. At the polls two election officials used an official ballot marking pen to mark over the marks made by the voters on these ballots. These ballots should have been duplicated by the election officials to preserve the original marks made by the voter. Counting these ballots by hand today reduced the number of undervotes that were recorded by the tabulator on Election Day. These 11 absentee ballots, combined with the 13 blank ballots, equaled the number of undervotes marked on the tabulator results tape. There were no objections.
- Ballots were sealed in containers with seal numbers 0663653, 0663651, 0663652, 0663654.

Municipality: City of Verona	Reporting Unit: Wards 5-8
Original Vote Totals for Reporting Unit: Prosser 608 votes Kloppenburg 1293 votes	Number of Voters from Registration List: 1920
Number of Absentee Ballot Applications: 333	Number of Absentee Ballots: 333

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Verona submitted a chain of custody for all election materials.
- The seal number listed on the Inspectors' Statement did not correspond with any of the seals used on the ballot bags. There were no objections.
- There were four absentee certificates that did not have corresponding applications. There were no objections.
- Supplemental poll list shows one voter who registered on the county poll list but not on the city poll list.
- One absentee ballot that was not initialed in the clerk's office. There were no objections.
- Tabulators counted the ballots and came up with 92 less than the count on Election Day. The Verona Clerk called the City Administrator who then checked and found unbagged and unsealed ballots in her office. City Administrator Bill Burns immediately brought a bag of ballots to the recount.
- Upon arrival in the recount room, the City Administrator and City Clerk were put under oath and completed a chain of custody statement for these ballots.
- The Board of Canvassers questioned the City Administrator and City Clerk about the ballots. They stated that they were unsealed when stored in the City Clerk's locked office since Election Day. The City Administrator sealed them in a ballot bag at the Verona Clerk's office after counting them today and then brought them to the recount.
- The Dane County Clerk put the Verona City Clerk Judy Masarik, City Administrator Bill Burns, Chief Inspector Gail Bogdoanow, Chief Inspector Ruth Jensen and Chief Inspector Kathleen Olson under oath. Each person acknowledged that they were sworn in and they are under oath.
- The designated representatives for each candidate examined the Verona officials. They determined that some ballots had been pre-initialed and pre-stamped with the ward number, but not issued to any voters. It was determined that there may have been ten such ballots. The designated representative for Prosser requested that the

City Clerk secure and seal these ten ballots and submit them as an exhibit to the Board of Canvassers.

- The designated representatives questioned the Verona officials about the security of the City Clerk's office. The Clerk's office has been unlocked at some points since Election Day. The Verona City Administrator, the Police department and Alvin from maintenance all have access to the Clerk's office.
- The Verona City Clerk and the City Administrator stated under oath that they had not tampered with the ballots.
- The Dane County Clerk asked whether anyone remembered having seen a stack of ballots that may have remained unbagged on election night. Chief Inspector Bogdanow remembered tallying the write-in votes on a stack of ballots, and that the ballots may not have been included in the ballot bags at the end of the night. She said they may have, instead, been returned to the Clerk's office with other election materials.
- The Deputy Clerk opened the ballot bag. Chief Inspector Bogdanow said she recognized the stack of ballots as well as the rubber band around them. The Board of Canvassers compared these ballots to the write-in tally sheet from election night and determined that they were from the write-in bin of the ballot box. There were two ballots in the stack labeled as remade ballots. These remade ballots matched the corresponding original ballots sealed in the envelope labeled "Ballots that have been duplicated." Two ballots in the stack were completely blank.
- The ballots were hand-counted by the Board of Canvassers. There were no objections.
- Ballots were sealed in containers with seal numbers 0663665, 0663664, 0663663, 0663662

Exhibits: Pre-initialed ballots not issued to voters to be bagged and sealed by Verona City Clerk.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Middleton submitted a chain of custody for all election materials.
- The Tabulators verified that the seals used on the ballot containers matched the seals

listed on the Inspectors' Statement. Two of the ballot containers did not have seal numbers documented on the front of the inspectors' statement, but they were documented at the end of the inspectors' statements. There were no objections.

- None of the ballots issued at the polling place had a ward designation.
- One (1) absentee certificate for Carol Fisher was not signed by a witness, but was counted at the polls. Ballot will count. No draw down. There were no objections.
- There were five (5) blank absentee ballots, five (5) with no initial of the clerk, thirteen (13) absentees with no ward designation. There were no objections.
- There were 15 blank regular ballots and various ballots with only one initial of an election official.
- There were five (5) absentee certificates for which applications were not found.
- Ballots were sealed in containers with seal numbers 414825, 414824, 414823, 414822, 414821, 414820, 414819, 414818

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Town of Middleton submitted a chain of custody for all election materials.
- Tabulators verified that the seals numbers on the containers matched those listed on the Inspectors' Statement.
- Two absentee ballots were requested via email and came back with written requests. For that reason, the Clerk rejected the ballots. The Board of Canvassers determined that they should not have been rejected and decided to count these two ballots. There were no objections.
 - Two votes were added for Prosser. There were no objections.
- Ballots were sealed in containers with seal numbers 414826, 414827, 414828, 414829, 414830, 414831, 414832, 414833

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Village of Waunakee submitted a chain of custody for all election materials.
- The Tabulators verified that the seals used on the ballot containers matched the seals

listed on the Inspectors' Statement. The Inspectors wrote down three out of the four numbers only. There were no objections.

- It was noted that when the boxes were sealed on Election night the seals were placed on top of the boxes rather than over the seams of the boxes.
- There was one absentee ballot that was rejected due to the fact there were no signatures at all on the certificate.
- The regular absentee certificates were verified against the absentee requests.
- Three Clerk's office absentee ballots were missing the Clerk's initials. The Board of Canvassers determined this to be a clerical error. There were no objections.
- A provisional vote added a vote for Kloppenburg. There were no objections.
- Ballots were sealed in containers with seal numbers 414834, 414835, 414836, 414837.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Town of Christiana submitted a chain of custody for all election materials.
- The Tabulators verified that the seals used on the ballot containers matched the seals listed on the Inspectors' Statement.
- Town of Christiana had only one supplemental poll list.
- One ballot did not have Inspector's Initials. There were no objections.
- On Election day the ballots were not going through the machine well and the auxiliary bin was being used and was open. Sometime after 7:00pm a voter than was given a number must have gone over to the machine and put a ballot in the bin and left. This was caught as the County Clerk's office was balancing the poll books but not until after the County Clerk's closed the Board of Canvass. The next day Chris Astrella, interim Clerk, went to the Town Hall, checked the bin and found the ballot. After calling the County Clerk's office, the ballot was secured and kept until time of the recount.
 - It was a vote for Kloppenburg.
- Kloppenburg gained two votes.

At 2:05 p.m., we were rotating workers between poll book reconciliation and ballot counting. Two Tabulators had been working on poll book reconciliation since 8 a.m. and needed to be given a new task. The Madison City Clerk asked for volunteers from the ballot counting table to move to poll book reconciliation. Nobody volunteered. The Madison City Clerk next asked which municipality each Tabulator was from, to determine which Tabulators had a while to wait before their municipality's ballots would be counted. Two of the individuals seated at the ballot table did not answer until the third time the Clerk asked this question. They then responded that they were from Madison. She asked if they were from the Town of Madison, and they responded that they were from the City of Madison. The Clerk did not recognize these individuals as City of Madison Chief Inspectors, and questioned them further. She determined that they were not City of Madison Inspectors, and had not been scheduled to work at this recount. These individuals said they were "with Prosser," at which time the Madison City Clerk summoned the County Clerk. The County Clerk brought the designated representative for each candidate together and then initiated the following proceeding:

1 TRANSCRIPT OF PROCEEDINGS

2 MR. SWEENEY: My name is Buck Sweeney,
3 and I'm representing Justice Prosser's campaign,
4 working with Jim Troupis, who is the lead attorney
5 regarding Justice Prosser's campaign. We're here
6 today to -- we have two people who consider
7 themselves to be volunteers, and when they came in
8 to the re-election office, office facility, they
9 said that they were here to volunteer, and they
10 were willing to count ballots. What they did not
11 understand is that you had to pre-register to be a
12 tabulator, to make sure that the county clerk
13 allowed you to be part of that, and there is a lot
14 of people that are tabulators, so it's a fairly
15 large group of people.

16 We found out that they weren't
17 pre-registered to be tabulators, and at that point
18 they stopped becoming tabulators, and we moved on.
19 The purpose of this hearing is to make the record
20 to get the facts for everyone, so that they can
21 look at it, and the county clerk will talk and she
22 talked with both sides, the Kloppenberg and Prosser
23 campaign, and we don't think that there was

24 anything done illegally or inappropriately
25 regarding the counting with the county. We believe

2

1 that's appropriate. I'd like to ask you to give
2 your name and address for the record.

3 MR. SMITH: Jack Smith. My address is

5 MR. SWEENEY: And you came here with your
6 wife. What's your wife's name?

7 MR. SMITH: Sharon.

8 MR. SWEENEY: And she lives with you, I
9 take it?

10 MR. SMITH: I hope so.

11 MR. SWEENEY: And when you came into this
12 facility this morning, you walked in and what did
13 you tell the people at the front table?

14 MR. SMITH: We're here to count votes,
15 help you count votes. We did the other day, too.

16 MR. SWEENEY: So you came in to count
17 votes?

18 MR. SMITH: Came here to count votes.

19 MR. SWEENEY: You're not registered with
20 Jim Troupis or Justice Prosser's campaign?

21 MR. SMITH: No.

22 MR. SWEENEY: She can only get one of us
23 at a time.

24 MR. SMITH: No, I'm not.

25 MR. SWEENEY: So your role today through

3

1 this was simply to help out with the recount?

2 MR. SMITH: To help out with the recount.

3 MR. SWEENEY: Do you have questions for
4 him?

5 MS. LALIME: No, I don't have any
6 questions. Our campaign says if the numbers all
7 added up correctly, we'll agree that it was a
8 mistake.

9 MS. PETERS: I'm Karen Peters, the county
10 clerk, and what we decided to do when people came
11 to the front door, because we had asked for
12 volunteers, we had the city clerk in Madison
13 handling most of the volunteers because I didn't
14 have time. So we asked the municipal clerk to
15 appear, to bring an inspector and more if they had
16 them. As people came in, we would ask them are you
17 here as a designated representative, because we
18 knew we could only have one of them, are you an
19 assistant representative, or a tabulator here to

20 volunteer, and I believe when we asked that, he
21 said he was a tabulator here to volunteer, meaning
22 that's what he was here to help with, but he was
23 not on anything that we were associated with.

24 MR. SWEENEY: It's fair to say where the
25 mistake was made is he could have called and

4

1 volunteered through the city clerk and through you,
2 and he didn't do that.

3 MS. PETERS: Actually Maribeth has a
4 list of people, but it's quite a long list, and at
5 times they switch between themselves. But we are
6 only using certified election inspectors as our
7 tabulators. So when they asked -- my understanding
8 is when they asked where are you from, he said City
9 of Madison, so we assumed it was one of the City of
10 Madison tabulators.

11 MR. SWEENEY: When, in fact, he lives in
12 the City of Madison. It was just an error, and it
13 should in no way affect the count.

After this proceeding, all Tabulators wrote the name of their municipality on their nametags.

Municipality: Town of Vienna	Reporting Unit: Wards 1-2

The court reporter left at 4:18 pm.

Municipality: Town of Sun Prairie	Reporting Unit: Wards 1-3
Original Vote Totals for Reporting Unit: Prosser 333 votes Kloppenburg 465 votes	Number of Voters from Registration List: 805

Number of Absentee Ballot Applications: 38	Number of Absentee Ballots: 38
---	-----------------------------------

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Town of Sun Prairie submitted a chain of custody for all election materials.
- There were four absentee ballots with no initials. The Board of Canvassers determined this was a clerical error. There were no objections.
- There were four regular ballots with one set of initials. The Board of Canvassers determined this was a clerical error. There were no objections.
- On Election night the Town of Sun Prairie ran out of ballots for the Sun Prairie School District. The Town Clerk had taken the pdf supplied by the Dane County Clerk and printed a paper copy on an 8 ½ x 11 sheet of paper when submitting the sample ballot to be printed in the newspaper. When she ran out of ballots on Election night, she took that copy and enlarged 32 copies of 11 x 17 ballots. At the end of the night they issued all 32 enlarged copies to voters and needed to issue a ballot to an additional voter. The Clerk issued the 8 ½ x 11 copy instead of making another enlarged copy. There was a lot of discussion on this issue, and it was agreed that this would be noted in the minutes. There were no objections.
- Both Prosser and Kloppenburg gained one vote.
- Number of voter slips recorded in the poll book was three (3) less than the number of ballots counted. Kloppenburg's Designated Representative requested that this discrepancy be investigated. Town of Sun Prairie Clerk and Chief Inspector reconciled the poll books once again and checked all absentee certificates to verify that their voter slip numbers were recorded in the poll book. Town of Sun Prairie officials confirmed that there were 805 voter slip numbers recorded in the poll book, and all absentees had been recorded in the poll book.
- The Board of Canvassers drew down three (3) ballots from the blank ballots. The designated representative for each candidate had no objections.
- Ballots were sealed in bags with seal numbers 0595598 and 0595599.

Exhibits: None.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Town of Westport submitted a chain of custody for all election materials.
- The Tabulators verified that the seal numbers matched the numbers recorded on the Inspectors' Statement. However, the Ballot Container Certificate (GAB-101) was not attached and that is the form that would have contained the Election Officials' signatures and the seal numbers.
- There were eight ballots with just one set of Election Officials initials.
- There were two ballots with no Election Officials initials.
- An absentee ballot was returned timely to the Clerk's Office but was mistakenly filed with absentees that needed to be reissued (Waunakee School Districted ballots needed to be re-printed due to a School District error). After the election the Clerk discovered that this ballot certificate was a reissued certificate and should have been sent to the polling location on Election Day. The Board of Canvassers counted this ballot. There were no objections.
- Both Prosser and Kloppenburg gained one vote each.
- Ballots were sealed in containers with seal numbers 414701, 414702, 414703 and 414704.

Exhibits: None.

- Village of Dane submitted a chain of custody for all election materials.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- Canvassers found one rejected absentee ballot that had been rejected for lack of a signature. Since the ballot was cast in the Clerk's office, the lack would not have been a defect but the Village Clerk recalled that a second ballot was issued to that voter because the ballot contained in the first envelope was spoiled. There were no objections.
- Two regular ballots were found without any initials of election inspectors. They were tallied with no objections.
- Ballots were sealed in containers with seal number 0663504.

Original Vote Totals for Reporting Unit: Prosser 315 votes Kloppenburg 494 votes	Number of Voters from Registration List: 817
Number of Absentee Ballot Applications: 66	Number of Absentee Ballots: 66
Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)	
<ul style="list-style-type: none"> • Town of Springdale submitted a chain of custody for all election materials. • The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements. • The pollworkers rejected three absentee ballots. One was from a voter deceased before Election Day, one was cast by a voter who chose to vote on Election Day before his absentee had been processed, and one absentee request did not have the voter's signature. The Board of Canvass determined that the last of these was rejected in error, as a request had been received timely via e-mail and the use of a ballot certificate envelope not bearing the sentence "I further certify that I requested this ballot" is a clerical error and not a defect. The envelope was opened and the ballot tabulated. There were no objections. • Three e-mailed ballots were received at the polls, assigned numbers and set aside by the pollworkers to confer with the Town Clerk. They were not remade or tallied until after the polls had closed and results had been reported to the County Clerk. At the Board of Canvass, the ballots were had counted and added to the totals. These 	

ballots were counted at the recount as well. There were no objections.

- Two absentee envelopes did not bear the initials of the clerk. They were counted without objection.
- Three regular ballots had only one set of inspector's initials. They were counted without objection.
- 822 ballots were found, 13 of which were undervotes for the office. The tabulators suspected that blank ballots which had been initialed but not given to voters were erroneously included in the sealed envelopes at the end of the night. The canvassers examined the undervoted ballots to determine if any were completely blank. Six (6) entirely blank ballots were found, which exactly corresponds to the discrepancy. The Canvassers unanimously agreed to remove the six entirely blank ballots, which were folded in half as a means of future identification. There were no objections.
- Ballots were sealed in containers with seal numbers 0663520 and 0663503.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Town of Roxbury submitted a chain of custody for all election materials.
- The Tabulators noted the seal numbers on the ballots bags were not recorded on the Inspectors' Statements. They were recorded on the ballot bag certificate and the bags were sealed and had not been tampered with. There were no objections to opening the bags.
- All of the absentee certificates were found to be missing. The Town Clerk did not know where he had put them. The Canvassers reviewed the sufficiency of the applications and the absentee log and found eleven. The last one that they were looking for was a remade absentee ballot and they were unable to identify it.
- Ballots were sealed in containers with seal numbers 0663518, and 0663519.

- Town of Pleasant Springs submitted a chain of custody for all election materials.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- There were sixteen (16) completely blank unissued, not initialled ballots that election officials sealed in bags with the voted ballots.
- Two ballots had only one set of election official initials
- One absentee ballot did not have the clerk's initials.
- Ballots were sealed in containers with seal numbers 0663522, 0663539, and 0663540.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Village of McFarland submitted a chain of custody for all election materials.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- An absentee ballot was rejected at the polling place because the certificate envelope lacked the voter's signature. This absentee ballot was issued in the clerk's office so the board of canvassers determined this was a clerical error. The board of canvassers counted the ballot, there were no objections.
- There were three ballots that had only one signature.
- There was one absentee ballot that had no signatures and no absentee stamp.
- An absentee ballot that had been rejected by the Clerk was determined by the Board of Canvassers to be a Clerical error and should have been counted.
 - This resulted in a vote for Prosser, making total votes counted 3030.
- Ballots were sealed in containers with seal numbers 414715, 414716, 414717, 414718, 414719, and 414720.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Town of Dunn submitted a chain of custody for all election materials.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- The Board of Canvass counted a rejected absentee ballot as it was a clerical error by the Clerk. Inspectors had taken a ballot curbside but, the voter had failed to sign the certification. There were no objections.
- When matching the original ballots that had been remade with their corresponding remade ballots tabulators noticed that an original ballot marked for Kloppenburg with the write-in arrow also marked, had been remade for a vote for Kloppenburg. The board of Canvass examined both ballots and determined that the write-in was defective because the voter had not written anything on the ballot. A vote was counted for Kloppenburg, there were no objections.
- Ballots were sealed in containers with seal numbers 414607,414606, 414605, 414604,414603,414602.

Original Vote Totals for Reporting Unit: Prosser 258 votes Kloppenburg 411 votes	Number of Voters from Registration List: 682
Number of Absentee Ballot Applications: 39	Number of Absentee Ballots: 39

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Town of Albion submitted a chain of custody for all election materials.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- First count shows 648 votes, 402 for Kloppenburg and 236 for Prosser.
- First count revealed approximately 34 ballots missing. This exactly matches the number of write-ins from the election night tabulator tape. Ballots were bagged, sealed and left until Tuesday, May 3 to wait until a court reporter is present to continue. Clerk and chief were charged with returning to the Albion office to search for missing ballots overnight, with a minimum of two people to search together. There were no objections.
- Ballots were sealed in containers with seal numbers 0663535, 0663536 and 0663550.

Exhibits: Exhibit 2: Written Statement from City Clerk of Albion. Sealed with seal number 414608.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- Village of Oregon submitted a chain of custody for all election materials.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- Voter slip #524 cannot be found in the poll book. Election officials documented in their Inspectors' Statement that a voter was given a voter slip but not recorded in the poll book. The ballot was counted. There were no objections.
- There was one regular ballot with only one set of Election Official initials.
- The Board of Canvassers noticed the following sequence of messages on the tabulator tape:
 - Startbar Detect
 - Request to read and accept
 - No need to return ballot
 - Request ignored
- The Board of Canvassers determined that absentee voters must have used marking instruments that the tabulator could not read since this was a higher number of gained votes. The Clerk was instructed to address this for future elections.
- Ballots were sealed in containers with seal numbers 0663547, 0663548 and 0663549.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Madison submitted a chain of custody for all election materials. There were no objections.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- It was agreed by both Candidate Designees that in polling locations with multiple wards, when the total number of ballots agrees and the total number of votes per candidate agrees, any discrepancy will not need to be reconciled between each ward. There were no objections.
- One regular ballot had only one set of election official initials.
- Ballots were sealed in a new container with seal number 0663559, 0663560.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Madison submitted a chain of custody for all election materials. There were no objections.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- Nine ballots issued at the polling place had "bad ballot" stickers. These apparently were ballots spoiled by the voters at the polls. When the election officials issued a second ballot, they mistakenly used the "good ballot/bad ballot" stickers. The ballots marked "bad ballot" were placed in the discarded ballot envelope by the tabulators. The ballots marked "good ballot" were counted as regular ballots. There were no objections.
- One Braille ballot was marked as a "bad ballot" and remade to be read by the tabulator.
- One ballot was turned in at the end of the night not inside a sealed bag. The Chief Inspector handed it to the City Clerk who sealed it on Election Day.
- Ballots were sealed in a new container with seal number 0663561, 0663562, 0663563.

raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Madison submitted a chain of custody for all election materials. There were no objections.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- There was one absentee ballot with no Clerk initials on it.
- One regular ballot bore only one set of inspector's initials.
- A review of the tabulator tape found a series of error messages corresponding to a jammed ballot noted in the Inspector's Statement. The County Clerk recommends that tabulator #53188 be examined by the technicians before the next election.
- There were two absentee ballots with no ward indication on them.
- The ballots were sealed in containers with seal numbers 0663801, 0663816, 0663817, 0663818, 0663819 and 0663820.

- City of Madison submitted a chain of custody for all election materials. There were no objections.
- The Tabulators verified that the seal numbers on the ballots bags matched what was recorded on the Inspectors' Statements.
- Twenty-three (23) ballots issued at the polls had only one set of election official initials.
- There was one ballot that was remade and about which there were questions. The original ballot was marked for Kloppenburg and the remade ballot was marked for Prosser. This was remade ballot #1 documented on the Inspectors' Statement at 7:45

a.m. The City Clerk called the Chief Inspector, Ingrid Rothe, who recalled using the good ballot/bad ballot stickers when issuing the voter a second ballot. The canvassers spoke to the Chief Inspector over the phone. Ms. Rothe said that other ballots remade by the election officials were absentee ballots marked in pencil. The tabulators verified that all other remade ballots for this polling place were absentees. The original bad ballot #1 was marked as Exhibit #4 and the remade good ballot #1 was marked as Exhibit #3. The designated representatives for each candidate agreed that these exhibits will not be sealed until the Board of Canvass is able to talk to Ms. Rothe in person the next morning while the court reporter is present.

- The ballots were sealed in a container with seal number 0663847.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Madison submitted a chain of custody for all election materials. There were no objections.
- The Tabulators noted verified that the seals on the ballot bags matched the seal number documented on the Inspectors' Statement.
- One ballot issued at the polls had only one set of election official initials. There were no objections.

- One absentee ballot contained no initials and no ward designation. There were no objections.
- One overseas absentee ballot was rejected at the polls because it was labeled by the voter for the wrong ward and it arrived too late on election day to be delivered to the correct ward. The Board of Canvassers determined that since this is a state-wide race, the vote on the ballot should be counted for the candidate of choice in this ward. The vote increased the count for Kloppenburg by one vote.
- The ballots were sealed in containers with seal numbers 0663887, 0663888 and 0663889.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Madison submitted a chain of custody for all election materials. There were no objections.
- The Tabulators noted verified that the seals on the ballot bags matched the seal number documented on the Inspectors' Statement.
- One ballot issued at the polls did not have a ward indication.
- Many ballots issued at the polls did not have a ward indication and only one set of election official initials.
- There was a question about the number of total votes counted at this ward. Chief Inspector Louise Bartlett was reached by phone. She explained that at the end of election night she found two ballots in the write-in bin and thought they had not been counted. She ran them through the tabulator to count them. She then determined that she had committed an error and documented the incident in the Incident Log. The Board of Canvassers determined that there were two ballots that had been double-counted. The number of ballots counted indicates that indeed there had been a double-counting of two votes, and these had been for Prosser.
- The ballots were sealed in containers with seal numbers 0663890, 0663894 and 0663895.

Notes (Include a description of any discrepancies, irregularities, errors, problems, objections raised by observers. Record any decision of the board of canvassers. Identify any exhibits by description and number.)

- City of Madison submitted a chain of custody for all election materials. There were no objections.

- The Tabulators verified that the seals used on the ballot bags had serial numbers that matched the seal numbers documented on the Inspectors' Statement.
- Fourteen absentee ballots contained neither the ward designation nor the initials of the City Clerk.
- One absentee ballot had no ward designation.
- There was a lack of documentation on the Inspectors' Statement for some of the ballots that had to be duplicated. The tabulators were not able to match all original ballots that needed to be duplicated with their respective remade ballots.
- One absentee ballot was rejected at the polls because the voter's name could not be found on the supplemental poll list. The Board of Canvassers counted this absentee ballot. The designated Prosser representative objected. This ballot was marked as exhibit #6. The exhibit was sealed with seal number 414500.
- The ballots were sealed in containers with seal numbers 0589894, 0589893, 0589892 and 0589891.

Exhibits: Exhibit #6 – Absentee ballot rejected at the polls, but sealed in a properly signed and witnessed absentee certificate envelope.
