WAUKESHA COUNTY BOARD OF CANVASS

A recount of the Spring Election
For Office of Supreme Court Justice
Held on April 5, 2011

Recount 11-2

Pursuant to the April 25, 2011 order of the Wisconsin Government Accountability Board (GAB) and the Declaratory Judgment of Hon. Richard Niess in Dane County Case #11-CV-1863, the Waukesha County Board of Canvass conducted a recount for the Office of the Wisconsin Justice of the Supreme Court for the election held on April 5, 2011. The Board concludes that the intent of the voters in Waukesha County for the aforesaid Supreme Court election is reflected in the attached Tabular Statement, Summary Statement of the Board of Canvassers, and Certification.

The recount was conducted in accordance with the election statutes and the regulations of the GAB for each of the reporting units in Waukesha County. A verbatim record was made of the following: election materials brought into the counting room by the County Clerk's designee; election materials returned to the County Clerk's designee; documentation or lack of documentation for duplicate or remade ballots; all objections and concerns by candidates' representatives; decisions by the Board of Canvass; consultations with the GAB; and identification of exhibits.

HAND COUNTED PAPER BALLOTS

The tabulators compared and reconciled the poll lists from the municipalities with the poll lists from the county for each polling unit. More often than not this took a significant amount of time because of clerical and human error in handing out voter numbers on election day. Poll workers in many municipalities failed to periodically reconcile the voter numbers handed out with the number of voters: some numbers were not used or recorded; some numbers were used twice for different voters. The Board took a significant amount of time to solve the poll book reconciliation problems in order to avoid the draw down procedure.

The tabulators conducted an absentee ballot review checking the number of ballot certificates with the poll lists and the absentee applications. The Board reviewed the rejected ballots and defective certifications. In several cases where the application was processed at the municipal clerk's office, the Board found no witness signature on the Absentee Certificate. Testimony was taken and the Board determined that the clerk failed to sign his/her name on the Absentee Certification. The Board voted to allow the ballot to be counted so as not to disenfranchise the citizen for an administrative error.

The Board on the record verified the "tamper evident serial number" on the ballot bags matched the seal number on the tags and the number written on the Inspectors' Statement (EB-104). The Board found there was no evidence of tampering with ballot bags. All the seals were intact, but some bags were not completely sealed. Some were damaged by handling. In two or three cases, duct tape was used where the ballot bag had ripped. Objections to the improperly sealed bags were recorded and those bags were counted separately by the tabulators. In addition, challenged bags were opened from the bottom, marked as an exhibit and preserved.

There were some cases where the three numbers (bag, seal, statement) didn't match, but most of the time human error reversed two digits. Sometimes the serial numbers were not recorded on the Inspectors' Statement; sometimes no signatures appeared next to the serial numbers on the Inspectors' Statement. In one case, no poll worker signatures appeared on the bag.

Ballots were counted by hand according to the Supreme Court Recount Plan (4/26/11). The Board reviewed rejected, spoiled and remade ballots. Some of these ballots were marked as exhibits, where required, and the Board's decision preserved.

In a few reporting units, the number of probable absentee ballots exceeded the number of proper certifications. A draw down of no more than one or two ballots was necessary.

The Board reconciled the number of ballots with the number of voters for each of the 194 reporting units in Waukesha County. Following the directive of the GAB, where several units were located at the same polling place, the reconciliation could cover all the units. Ballot/voter discrepancies in one unit could be reconciled with numbers from another unit voting at the same location.

The Board conducted a draw down in only 12 of the 194 reporting units. Draw downs involved a total of 6 absentee ballots and 13 blank ballots out of a total of over 125,000 ballots.

The Board reviewed provisional ballots; there were five late arriving military ballots.

Tabulators hand counted the ballots and recorded the results on separate tally sheets (EB-105). The Board marked and added in votes counted separately.

Based on the careful reconciliation of the physical ballots with the poll books and absentee ballots with certificates, and for some units the election night tapes, the Board found no evidence of tampering with the ballot bags.

DIRECT RECORDING ELECTRONIC (DRE) TOUCH SCREEN VOTING EQUIPMENT

The Board verified the voting equipment's tamper evident serial number seal written on the Inspectors' Statement contains the Chief Inspector's initials for pre-election and post-election verification.

The Board reviewed the vote totals generated by DRE at the polling place. Tabulators hand counted the permanent paper record of votes generated by DRE and recorded the results on duplicate tally sheets. DRE generated votes were added into the hand count for the reporting unit and reconciled.

OPTICAL SCAN VOTING EQUIPMENT (INSIGHT)

For reporting units using optical scan voting machines, the tabulators reconciled the poll lists and hand counted the number of physical ballots. Ballots were manually screened for marks that may not be correctly recorded by the machine. Screened ballots were referred to the Board for determination of voter intent and were hand counted.

The Board verified the equipment's tamper-evident serial number seal written on the Inspectors' Statement contained the Chief Inspector's initials for pre-and post-election verification.

The automatic tabulator was tested using a test deck of ballots. The ballots were fed by hand into the automatic tabulator.

Votes counted separately were added in and the canvass statement prepared.
The above procedure was followed for municipalities using central count absentee voting.

SPOILED BALLOTS

A candidate's representatives voiced a concern with spoiled ballots. The Board removed the contents of the "spoiled ballot envelope" for each reporting unit and displayed the ballot pieces.

REMADE BALLOTS

The Board found only two reporting units where the "remade ballot" envelope was inside the ballot bags. The Board also found that poll workers often failed to document with a serial number and failed to record the reason for the remade ballot on the Inspectors' Statement. In addition, the duplicate (remade) ballot was not marked. Thus, in a great number of instances, comparison of the original ballot with the duplicate could not be made for recount purposes.

The Board found in 100% of reporting units where the proper procedure was followed, the duplicate (remade) ballots matched the originals. The Board found no fraud or conspiracy with the failure to document properly.

BALLOTS LACKING INITIALS

Challenges were made to regular ballots and absentee ballots lacking initials. The Board took testimony from municipal clerks with respect to these omissions. The Board reviewed the ballots separately and made a record. The Board consistently counted the ballots not properly initialed because of human error.

CONCLUSION

The purpose of the election statutes and regulations of the Government Accountability Board in a recount is to ascertain voter intent. The law disfavors disenfranchising the voters and the law should be liberally construed. The primary responsibility for ascertaining voter intent rests with the election officials who all take oaths to support the Constitution of the United States and the Constitution of the State of Wisconsin, from the municipal clerks to the poll workers to the tabulators to the Board of Canvass.

The Waukesha County Board of Canvass took great care and pains in fulfilling their responsibility of ascertaining voter intent for the Supreme Court election of April 5, 2011. All aspects and materials in the recount were open to observation, all challenges and concerns of candidates' representatives were heard. Each reporting unit's results were openly reconciled.

The reconciliations made from the election materials and ballots showed the recount results closely matched the election night results reported from the polling places as well as the results of the original canvass. The Board concludes that there were no violations of the election statutes. There were cases where there was a draw down and cases where votes were added, but the count differences were not significant and did not affect the outcome.

The Board concludes there were no ballots removed from ballot bags, no ballots added to bags, no intent to defraud, no intent to damage ballots or election materials. Any clerical or procedural failure that the Board uncovered did not affect the outcome.

In conclusion, the Board found that the intent of the voters in Waukesha County, both individually and collectively, for each candidate was revealed in the original canvass and confirmed by this recount. The number of votes cast for the office of Justice of the Supreme Court was 125,182; David T. Prosser, Jr. received 92,331 votes; Joanne F. Kloppenburg received 32,777 votes; and there were 74 votes called "scattering."

Acknowledgements

The Board members wish to express their appreciation to the people who assisted in the recount: all the volunteer tabulators, Marilyn Czubkowski , Barb Schwellinger , Patricia Madden, Deputy County Clerk Kelly Yaeger and the staff from the County Clerk's Office, Corporation Counsel Thomas Farley, Principal Assistants Danni Caldwell and Deborah Price, Chief of Staff for the County Executive, Ellen Nowak, and Shirlene Hazelburg from the County Executive's Office for assistance in preparation of the minutes. The Board especially wishes to thank Barbara Hansen, CERA, for her tireless service and guidance.

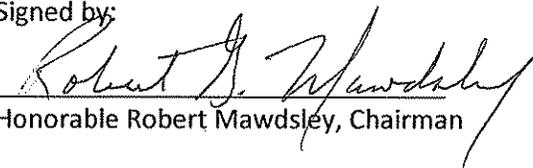

Approval of Minutes

The Waukesha County Board of Canvass reconvened on June 27, 2011 for the purpose of approving these minutes.

The Minutes of the Waukesha County Board of Canvass are hereby approved and will be transmitted to the Government Accountability Board for the State of Wisconsin and representatives of each of the candidates for the Office of Justice of the Supreme Court.

The Board hereby returns to the County Clerk all the exhibits marked by the Board as well as any materials used by the Board. The Clerk shall retain or dispose of them according to Wisconsin law and any directives of the Government Accountability Board.

The proceedings for recount by the Waukesha County Board of Canvass were conducted pursuant to Wisconsin Statutes, the Government Accountability Board's manual entitled "Election Recount Procedures" dated September 2008 (revised May 20, 2009), and the Supreme Court Recount Plan, dated April 22, 2011, as ordered by the Dane County Circuit Court in the case of In the Matter of the Recount of Votes for Wisconsin Supreme Court Justice: Wisconsin Government Accountability Board v. David Prosser and Joanne Klopppenborg, Case Number 11-CV-1863.

The recount proceedings of the Waukesha County Board of Canvass were broadcast live via the internet on the Waukesha County website under the link on the page of the County Clerk.

Per instructions by GAB, ballots that could not be counted by the machine were hand counted by BOC and marked as an Exhibit.

To obtain the count for the “Number of Probable Absentee Ballots”, the tabulators were instructed to look for folds in the ballots indicating an absentee ballot or for the single set of initials in the absentee line where the initials should be placed.

Judge Mawdsley went over the ground rules as promulgated by the Government Accountability Board. The agenda of the Board of Canvass was properly posted under Section 19.85, Wisconsin Statutes. Judge Mawdsley introduced the Board of Canvass members. All tabulators have been given the oath. Barbara Hansen will be a consultant to assist the Board of Canvass. She was given the oath. Barbara Hansen gave instructions to the tabulators.

Notes:

1. An issue arose regarding spoiled Ballot No. 1. The Board was in touch with the Government Accountability Board (GAB) over the lunch recess. The recommendation of the GAB was that the municipal clerk contact the chief inspector for the Reporting Unit and a poll worker for the Reporting Unit who would recall that a duplicate ballot was made for the spoiled Ballot No. 1. The recommendation of GAB was also to include spoiled Ballot No. 1 as an exhibit so that it is kept apart and available for review in the future. Dorothy Bugenhagen, Inspector for the Town of Brookfield, appeared by telephone, was sworn in and testified for the Board of Canvass regarding Exhibit #1, a spoiled ballot marked Ballot #1. The Board could not locate remade Ballot #1. The Board reviewed incident #4 from Inspector’s Report which indicated original Ballot #1 was unvoted because it was made in ink. The Board determined that, based on the testimony, it is credible that the inspector forgot to mark the remade ballot and that the remade ballot was in the stack counted by the tabulators. The vote on the spoiled ballot was for Kloppenburg.

Notes:

1. The Kloppenburg representatives objected to counting Ballot Bag No. 3 from the Town of Delafield, Wards 1, 2, 5 and 6 on the grounds that the Inspector's Report did not record the seal number of the third bag and there could be a break in the chain of custody. The Board noted for the record that the Inspector's Report states that three bags exist. The Board opened Bag No. 3 and examined the poll tape inside which said "Town of Delafield Wards 1, 2, 5 and 6". Thus, the Board found that the contents of Bag No. 3 corresponded to the Reporting Unit being worked on and all three ballot bags had the same identical signatures. The Board found that the chain of custody was not affected based on the evidence of the signatures and tape inside identifying the wards, and it is appropriate to count the votes. The ballots of Bag No. 3 were to be counted separately. There were no objections to the other two ballot bags.

Judge Mawdsley later noted in the record that he consulted with the GAB about the decision to count the ballots from Bag. No. 3 separately.

Mary Elsner, Clerk for the Town of Delafield, was sworn and testified to the Board that she believed a third ballot bag was needed and the workers at the polling place forgot to record the number of Bag. No. 3. She said the bags were numbered 1 of three, 2 of three, and 3 of three, and they have all the same signatures on each bag and the ward numbers written. The Kloppenburg representatives clarified that there is no objection to the DRE scroll tape, only the paper ballots in Bag No. 3. After counting the ballots, the Board unanimously agreed to include the Bag No. 3 totals in the overall total for the Reporting Unit.

Notes:

1. The Kloppenburg representatives raised a concern about the ballot bag from the Town of Delafield, Wards 7 and 8 and the Board marked the bag as Exhibit # 13. The Board noted for the record that all of the ballots from Wards 7 and 8 were in this one full bag and it appeared that the DRE roll was also in the bag. The serial number of 316588 was crossed off on the bag and above it was written 3165444 with the initials of "ME." The town clerk submitted a note, marked as Exhibit # 14, regarding the ballot bag. The note indicates that when the material from the polling location for Wards 7 and 8,

Brandybrook, were returned to her, she discovered that the ballot bag was not securely sealed, but included a seal number, so in the presence of her Deputy Clerk, she resealed the ballot bag, and entered the number on the ballot bag and the inspector's statement before delivering it to the county clerk.

The Clerk, Mary Elsner, was present and testified to the Board. She stated that when the bag came to her with seal number 316588, the corners were not turned in like they were supposed to be. It was not sealed in a way that the county clerk would accept it. She put a new seal on the bag, number 3167090. In handling the bag, it was determined that it would be too heavy and could possibly rip. The clerk and deputy clerk took the ballots out of the intact original bag and put them into an unlabeled bag and then inserted them back into the original bag and sealed it with seal number 316544. The rebagging took place in her office in the town hall. Therefore, the one number crossed off on the bag, Exhibit #13, is different from the number on the inspector's report that's crossed off.

The Board agreed to open the ballot bag. It was a double bag. The DRE tape inside had all zeros, showing that nobody voted using that machine.

Notes:

1. In completing the inventory of election materials as the items were being packed up, the Board noted that there were two absentee ballots in the rejected absentee ballot envelope. The records from the poll list show that two absentee voters had their ballots remade. The inspectors put these ballots in the wrong envelope. The envelope should hold the rejected voter certificate envelopes, but the ballots were placed in there. The ballots were marked and initialed as remade ballots. The two ballots were placed back into the rejected absentee ballot envelope after examination by the Board and the envelope was dated and initialed by Barbara Hansen.

1. Recount work on this reporting unit commenced on April 29, 2011 and continued on April 30, 2011.
2. Board voted unanimously to reject the absentee ballot marked as Exhibit #35 because it did not comply with the absentee voting requirements of having a witness. The poll workers should have rejected this absentee ballot and not counted it at the polling place on election day.

As a result of rejecting the absentee ballot marked as Exhibit #35, the Board conducted a draw down of absentee ballots. There were no blank ballots. The ballot drawn down was a vote for Prosser and marked as Exhibit #36.

3. The Board conducted a draw down using blank ballots. Per GAB's e-mail, blank ballots can be those undervoted for the Office of Justice of the Supreme Court. There were three blank ballots, and one was drawn down and marked as Exhibit #38.

Exhibits:

Exhibit #35: Absentee Ballot Application Certification for Town of Eagle marked in the right-hand corner with "489". There is a signature, but no witness.

Exhibit #36: Absentee Ballot drawn down by the Board for the Town of Eagle, Wards 1-4. The ballot was a vote for Prosser.

Number of Voters from Registration List: 2470

Number of Absentee Ballot Applications: 244

Number of Probable Absentee Ballots Identified by the Tabulators: 235

Notes:

1. On page 5 of the City of Delafield poll list, two voters are indicated as voters numbered 2466 and 2465 and the numbers are crossed out. One poll list says "left the building before voting" and the other poll list says "left". The City Clerk was present and testified that these voters came in at five minutes before 8:00 p.m. They were recorded in the poll book. Their particular school district race ran out of ballots so the voters were directed to the Edge machine where there were about 60 people in line. The two voters waited about five minutes, got very angry that they had to wait, started to cause a scene and left. No ballots were issued to them so their names were crossed off in the poll lists. So the ward will have two voter numbers more than ballots.
2. The Board voted unanimously to reject five late military ballots, determining that they were properly set aside and not counted by the Clerk of the City of Delafield. The five ballots were marked as Exhibit #42.

3. The Board voted unanimously that the provisional ballot issued in the City of Delafield, Wards 1-7 should not have been issued in this instance based upon the facts recited by the City Clerk. More specifically, a voter came to the polls on Election Day to register. He did not have any proof of residence. He had his driver's license, but it had his old address on it. The Board reviewed the Election Administration Manual for Wisconsin Municipal Clerks regarding provisional voting and Section 6.97 of Wisconsin Statutes before concluding that the provisional ballot should not have been issued and will not be counted. See Exhibits #43 through 45.
4. Regarding Exhibit #47, an absentee certificate that was witnessed and had only printing on top, the Board unanimously voted to accept and count the vote. The Kloppenburg campaign argued that the signature had to be on it or it's defective. The Prosser campaign noted that the witness who signed was the utility clerk in the City Clerk's office, per testimony of the Clerk. The Board placed significance on the fact that the Clerk testified that this was done in the presence of a Clerk. This was done in a municipal building under the regular course of business and was an omission by the Clerk. Further, one could look at this as the way this person signs her name as opposed to cursive; it might just be in the regular script.

Exhibits:

Exhibit #34: Copy of the Supplemental Poll List that was transmitted from the City of Delafield on April 7, 2011 to the County Clerk.

Exhibit #41: Original of the Supplemental Poll that was transmitted from the City of Delafield on April 7, 2011 to the County Clerk.

Notes:

1. The Kloppenburg representatives objected to counting the ballots in the one ballot bag for the Village of Chenequa because there were not signatures on the ballot container certificate. The inspectors are listed on the inspector's statement and they wrote on and dated the ballot container certification, but did not sign it. The Clerk for the Village of Chenequa was present and testified to the Board that the bag and certificate were filled out by her at about quarter-to-eight when there were still people voting. The election workers packed the ballots in the bag, but the clerk did not notice that it was not signed. The bag was put back into the container that comes to the county. The Board decided to count the ballots.

Number of Absentee Ballot Applications: 39

Number of Probable Absentee Ballots Identified by the Tabulators: 39

Notes:

1. Cynthia Pfeifer, Village Clerk/Treasurer for the Village of Nashotah was present and testified to the Board regarding Incident No. 1 for a defective absentee ballot. She stated that when the ballot was put in the machine, it was an absentee ballot. She believes it was voter 82A. The machine rejected the ballot, saying it was a ballot mismatch. When she looked at the ballot, she could tell there was a bleed through from another ballot. She tried it again, but it would not feed through. The inspector remade the ballot with the clerk and the deputy chief overseeing it. The ballot was remade on a regular ballot at the polling place, exactly as the absentee ballot was made. It was noted on the original absentee ballot, it was noted on the inspector's statement, and it was written in the poll book. She did not put anything on the remade ballot because she did not know she had to. It was put with the regular ballots and fed through the machine. The clerk explained that she never had to remake a ballot before. She couldn't get through to the GAB that day. She called the County Clerk's office, got through to someone here, and they told her to write it on the inspector's statement.
2. The Clerk for the Village of Nashotah also testified to the Board about an absentee certificate (Exhibit #62) that was not witnessed, but was done at the Clerk's office. The Clerk reviewed absentee log (Exhibit #63) pointing to a notation of application dated March 30, 2011, in-office voting. She testified that she forgot to sign as a witness. She filed the application and then the ballot. The Kloppenburg representatives asked the Board not to count the vote. Based on the sworn testimony of the Clerk, this was an in-office vote and it was the Clerk's error not to sign off on the absentee certificate. The Board counted the vote. The ballot was originally counted.
3. The Clerk for the Village of Nashotah also testified about Exhibit #64, a ballot with one set of initials. She did not have a reason for only one set of initials. The Board unanimously agreed to count the ballot based on voter intent. Vote for Prosser.

**Notes:**

1. For the direct record votes from the Edge machine in the Town of Genesee, the Election Clerk for the Town, Deborah Gresser, testified to the Board as to why the Board has the tapes from election night, but should not be using the original tapes for the recount. Miss Gresser explained that during the election day, she needed to change the paper in the printer. When she did so, she failed to wind it in the proper spot. The new paper rolled and she assumed it was working. Two voters came and cast their votes and the votes were counted. Miss Gresser then saw that the machine was not printing. At that point she called the clerk to ask how to fix the paper feed. The Board asked if the tape actually shows the total votes cast, to which the Election Clerk answered affirmatively: the tape balanced with the town's numbers and the poll books. All the votes cast were reported, but they may have not been recorded on the paper. She did not believe the seal on the election machine was broken until the end of the evening, the proper procedures were followed after breaking the seal to preserve the data, and to her knowledge the data on the memory pack has not been modified since election night.

Barbara Hansen advised the Board that in order to count all the ballots for the direct record Edge machine, the strip would have to be run over again to produce the same ballots as the voters voted. The Board had the Deputy County Clerk bring in the blue bag that contained the memory pack, verified the seal numbers, and opened the bag. The Board allowed the Election Clerk to run the tape to obtain the information that is stored in the machine from election night. The Board called Command Central for instructions on how to print the tape of votes cast on election night. A technician, Larry Swift, testified telephonically to the Board. After printing the tape, the Board determined that the DRE held 193 votes for the entire town. The Board called the technician again to ask if there was any way to break down the total votes to show just those in a reporting unit. The answer was no. The Board had the tabulators unroll the tape and manually count the ballots by reporting unit.

2. The recount of the votes for the Town of Genesee, Wards 1, 2 and 5 began on May 2, 2011 and continued on May 3, 2011.

**Notes:**

1. The Kloppenburg representatives objected to counting ballot bag 1 of 2 for the Town of Genesee, Wards 6, 9 and 10 because the bag tag and seal and label were different numbers than on the inspection report. The Board noted that the seal is 3165678, on the label the serial number is 3165678, but on the inspector's list it was 3165679 – a different last number. It appears that "B. Hellman" wrote a different number down. The Board voted to open the ballot bag and count the ballots separately. The ballot bag was marked as Exhibit #70. The Clerk addressed why the Board has two copies of the Inspector's Statement with numbers on them. The second copy is somewhat incomplete, but does have a set of numbers that matches the ballot bag tags. The Clerk testified that one was the original copy and the other is a photocopy. The tag numbers were added and the voting number and the tamper evidence seal numbers were added to the copy. She thinks she made a copy for the town's purposes, but did not make a copy of the back of one page of the original that went to the County. The handwriting is of Betty Hellman, who wrote the tag numbers down on the original inspector's statement. The Clerk was present for that and thought they had done it right. The following morning, the Clerk looked at the ballot bags and wrote the numbers down on the copy. All ten wards vote at Genesee Town Hall and the ballot bags were stored in a vault at the same location on election night. The Board decided to count the ballots in this bag. Bag 1 contained 346 ballots: 266 for Prosser, 95 for Kloppenburg and 3 Scattering. The ballots were rebagged into Exhibit #82.
2. The Clerk, Barbara Whitmore, was present and testified to the Board regarding three absentee ballots in the Town of Genesee, Wards 6, 9 and 10. For the first ballot, the Clerk recalls the voter coming to the office and identifies her own handwriting. There were no objections to the Board accepting the ballot. As to the second ballot, the Clerk testified that she did not recognize the name, but it was her own handwriting. She did not sign it, but she verified she was working alone in the office that day. Given the testimony, there was no objection to the Board accepting the ballot. As to the third ballot, the Clerk testified that it was her own writing on it. She did not recognize the name, but she worked in the office that day. Given the testimony, there was no objection to the Board accepting the ballot.

**Notes:**

1. The Board examined a ballot on which the voter voted in the Clerk's office, but the Clerk did not sign it. The Clerk testified to the Board that a mother and daughter came to the office. The mother filled out the ballot, but was unable to sign her name. The daughter, who had read the ballot to the mother, signed the ballot as power of attorney, as directed by the Clerk. Based on the testimony, there were no objections to the Board accepting the vote. The ballot was marked as Exhibit #86.
2. The Board examined two separate requests e-mailed each by a husband and wife to the Clerk for absentee ballots. The Clerk testified that the voters signed the certification of voter. However, the Clerk also requested that when the voters return the ballot, inside the sealed envelope they include their e-mail request with their signatures on it. Inside this envelope were the e-mail requests, but they were not signed. The Clerk did not clearly list the instructions as to signatures on the e-mail to these voters. The voters followed all the instructions actually given by the Clerk. The Board reviewed the absentee ballot instructions from the GAB manual, including the provision that states, "do not reject an absentee ballot if there is no written application". The Board voted that there were applications for these voters. Judge Mawdsley abstained from voting because he knew some of these voters personally. There were no objections to the other two Board members accepting these ballots.

Notes:

1. The recount of the votes for the City of Oconomowoc began on May 2, 2011 and continued on May 3, 2011.
2. The Kloppenburg representatives objected when the Board allowed Attorney Daniel Kelly to come into the room for the Prosser campaign. The Board ruled that the number of observers from each campaign does not always have to be equal. For the convenience of everyone, as long as the situation does not get too far afield, one or two extras or uneven numbers don't disturb the Board as long as they don't disturb the workers. The Board has not turned anyone away at this point as long as it's reasonable.
3. Diane Coenen, Clerk for the City of Oconomowoc, was present and testified to the Board about the remade ballot envelope that was marked as Exhibit #96. She testified that from election night on, when the polls closed, the envelope was brought to the City Clerk's office and was in her possession in a locked vault until about 2:00 p.m. on April 6. At that time she personally transferred all election materials and turned them over to the County Clerk's office. She had no reason to believe that at any time that she had custody of Exhibit #96 that there was an opportunity for any of the ballots to be changed. She also testified to the process used by the Chief Inspector to remake ballots.

Notes:

1. The Kloppenburg representatives objected to opening Ballot Bag No. 1 and Ballot Bag No. 2 for the City of Oconomowoc, Wards 7-9, 17-19 and 26 based on the condition of the bag. They stated there was evidence that the ballots on the inside could have been handled after election night.

The Board noted the objection and opened both bags with the instruction to the tabulators that all three ballot bags for this reporting unit will be counted separately because of the objection.

The Clerk for the City of Oconomowoc testified to the Board regarding the condition of the bags. The Clerk was informed by Sharon Kejwan, Chief Inspector at District 3, that on election night the City's DPW workers came to the polling place to help them bring all their supplies back to the Clerk's office. Due to the weight of the bag, it ripped as they picked it up to put it into the metal container. They taped the bag, but when they lifted it, it ripped again. The reason they did not empty any of the bag contents is because they had already sealed it, signed it and verified the seal number. Instead, they kept adding tape to secure the bag. The ballot bags were brought to the Clerk's office where they stayed in a locked vault until they were brought to the County Clerk's office the next day. The Kloppenburg representatives, based on the Clerk's testimony, waived their objection and agreed to having the ballots counted at the same time.

2. The rejected Absentee Ballot Envelope for the City of Oconomowoc, Wards 7-9, 17-19 and 26 contained an envelope with a notation of "missing the witness address". A post-it note was on the envelope indicating "Envelope is missing witness address. Contacted voter -- she wants the ballot rejected. Chris at City Hall". The Board heard the testimony via telephone of Chris Dehnert from City Hall in Oconomowoc to determine if the absentee ballot should have been rejected. Chris contacted the voter on March 21, 2011. The voter indicated that she didn't care that the ballot wasn't counted. She was unhappy with someone on the ballot. Chris offered to have her come to city hall to tear up the ballot and revote. She said no. She did not want the ballot to count. Chris offered to have her come down, destroy the ballot, and get a second ballot. The voter said she would rather the ballot didn't count. Chris testified that she wrote the note on the envelope. Chris did not know the voter personally. The Board decided unanimously that the voter could orally give instructions that she did not want her vote counted, therefore, the Board agreed with the Clerk's decision to consider this ballot a rejected absentee ballot. Exhibit #101 is the certificate of rejected absentee ballots.

3. The City of Oconomowoc Clerk testified to the Board about an absentee ballot that arrived late. She stated that after the election materials were brought to the County, she received in the mail one absentee envelope. It was received April 6. It is still in the City Clerk's office.

Notes:

1. The Kloppenburg representatives objected to the manner in which Ballot Bag No. 3 was sealed. The Board instructed that it be counted separately. This bag also included a direct record roll.

The Clerk for the City of Oconomowoc testified to the Board about the condition of the ballot bags. Due to the weight of the bags and being put in a metal container could account for some of the tears on the side. As for the ballot bags being tied at the top for District 4, the Clerk explained that she has an arthritic chief who finds it very difficult to close the bags with two folds in them and the seals to wrap around it. Based on the chief's request, she added some holes to the bag -- it's what the Board has called air holes -- so they could thread the seal around better and pull it together. Ballot Bag No. 3 contained 469 ballots: 423 physical ballots, 43 absentee and 3 DRE.

Note: The City of Brookfield used central count absentee. The numbers reflected by reporting unit include votes cast at the polling place and absentee ballots counted at the central count.

**Number of Voters from Registration List: 656**

**Number of Absentee Ballot Applications: 49**

**Number of Probable Absentee Ballots Identified by the Tabulators: 49**

**Notes:**

1. The Board commenced the recount of this reporting unit on May 5, 2011 and finalized it on May 7, 2011.
2. The Kloppenburg representatives objected to counting all of the ballots from the six bags for the City of Brookfield, Wards 1-3 based on the condition of the bag. They alleged that without corroborating testimony, there was no assurance about the contents of the bags. The Prosser representatives objected to the objections, stating there is no clear evidence of fraud or wrong doing and the people of Brookfield should not be disenfranchised. The Board noted the objections, allowed photographs to be taken of the ballot bags and took testimony from the City of Brookfield Clerk, Kris Schmidt, regarding the condition of the bags. The Board marked the bags as Exhibits #135 through #140 and opened them from the bottom. The Board proceeded to count the ballots.
3. The City of Brookfield Clerk testified to the Board that absentee ballots were pre-initialed. Due to large voter turnout, these ballots had to be used. When they were given to a voter, they were initialed by two other clerks, so there are three sets of initials on these ballots. This will occur throughout the City of Brookfield. The Board agreed to accept those ballots, based on the explanation, and the Board will not set the ballots apart. Also, in the other situation with just one initial on a ballot, the Board has uniformly examined the ballot and assigned the proper vote to it. The Board decided to keep those ballots with the regular ballots for the count and accept them. The Board reconciled the poll books to make sure there were not more ballots than voters.
4. The Board decided that several people outside the recount room who had signs could leave the signs outside and come in to observe. The Board did not allow signs in the recount room. Judge Mawdsley

viewed the signs and determined that the recount room is an extension of a polling place and a court-ordered recount. The signs were distractive and amounted to electioneering.

5. The Board intended to do a draw down of ballots for Ward 1, City of Brookfield, thus, conducting a draw down by reporting unit. The Clerk for the City of Brookfield objected, arguing that reconciliation should be across polling place, not wards. The Prosser representatives had a conditional objection to how the Board intended to conduct a draw down by ward, conditioning the objection on reconciling the numbers of the other two wards at a polling place.

At the Board's direction, Corporation Counsel for Waukesha County, Thomas Farley, contacted the GAB for consultation. The statute is clear that the requirement is to report by ward. But, in situations where the Clerk is present, can give clear testimony as to the ambiguity, and it is explainable, Boards of Canvass around the state have made an exception, as advised by GAB, and have not done a draw down by Ward. The Clerk for the City of Brookfield then testified to the Board that at locations with more than one ward, the ballots were exactly the same for the Supreme Court race. Sometimes a ballot was given out incorrectly to a person and the ballot count could get two up in one ward and two down in another.

The Board was satisfied that there was an explanation for the difference of two ballots between Wards 1 and 2 in the City of Brookfield. The Board adopted the exception to the statute as promulgated by GAB. The Board also noted that for all previous draw downs, it has correctly followed the statute and only blank ballots had to be drawn down.

**Notes:**

1. The Board began the recount of this ward on May 5, 2011 and completed it on May 7, 2011.
2. The City of Brookfield Clerk explained to the Board that in Ward 9, additional ballots were needed on election night. The poll workers took ballots for Ward 10 to be used in Ward 9 because other than the color of the ballot, the ballots were the same for both wards. The poll workers said they took 32 ballots from Ward 10, crossed off the "10" and wrote in a "9". The Board manually counted 30 of these ballots, which meant two of them were still in the pool of ballots for Ward 10. The Board determined that there was a wash between the number of ballots found in Ward 9 and Ward 10.

Other Waukesha County Personnel: Deputy County Clerk Kelly Yaeger, Teri Sayles and Cindy Watkins (County Clerk's office)
Attorneys Thomas Farley and Deborah Price (Corporation Counsel Office)
Others Present: Court Reporter Carolyn Kingsley in the morning and Karen Renee in the afternoon for Waukesha County
Deputy from the Waukesha County Sheriff's Department
Kris Schmidt, Clerk for City of Brookfield
Renee Tadych, Deputy Clerk for City of Brookfield
Attorney Karen Flaherty for City of Brookfield

Location of Recount: Room 155, Administration Center, 515 W. Moreland Blvd., Waukesha

Name of Municipality: City of Brookfield

Reporting Unit: Ward 11

Electronic Voting Equipment Test Results: For the City of Brookfield, Wards 11, 12 and 13, the Board conducted a test of the electronic voting machine according to the procedures set forth by the GAB in the Election Recount Procedures. The Board confirmed the seal numbers on the memory packs and determined that the seals matched the log maintained by the poll workers and the municipal clerk. The Board instructed the municipal clerk to insert the memory pack and run a "zero" tape. The Board then had the clerk run the test deck and printed the results. The Board reconciled the original test results with today's test results. The test deck was removed from the machine. The tabulators were instructed to manually screen ballots for marks that may not be recorded correctly by the machine. The tabulators then counted the number of ballots by hand before feeding them into to the machine to determine the votes for each candidate.

Number of Voters from Registration List: 751

Number of Absentee Ballot Applications: 105

Number of Probable Absentee Ballots Identified by the Tabulators: 105

Notes:

1. The Kloppenburg representatives objected to opening the ballot bags for this ward based on the condition of the seals, noting that the integrity of the recount process is mainly dependent on the integrity of the materials in the bags. The Board noted the objection and proceeded to open the bags and recount the ballots.

Number of Probable Absentee Ballots Identified by the Tabulators: 59

Notes:

1. When opening the ballot bags for the City of Brookfield, Wards 14, 15, 16 and 17, the Board noted that there were no ballot bag serial numbers on the Inspector’s form. Kris Schmidt, Clerk for the City of Brookfield, testified to the Board. She testified that some workers do not write it on the sealed documentation record, but do write it on the ballot bags. The Kloppenburg representatives noted for the record that there’s no evidence that these bags were sealed with that seal number on the night of the election. The Prosser representative countered that there’s no indication that the tag isn’t the correct tag. The Board proceeded to open the ballot bags and count the ballots.
2. In Ward 14, the last voter number was 280. There were physically 283 voters on the poll list. The number of ballots were 280. In Ward 15, the last voter number was 397, but the poll book only indicated 394 voters, and there were 397 ballots counted. The Board reconciled against the two wards at the polling place per the directive of the GAB.

Notes:

1. The Board needed to conduct a draw down of ballots for Ward 19, City of Brookfield, because the records showed three more ballots than voters in the poll book. The Board did not plan on using Wards 18 or 20, within the same polling place as Ward 19, because the other two wards reconciled between poll books and voters. Two blank ballots would be pulled from Ward 19 and a third ballot would also be pulled. The City of Brookfield Clerk objected to the draw down method proposed by the Board. The Clerk said it was obvious that three voters did not get numbers because three numbers were missing in the poll book. The Clerk suggested the Board pull a blank from another ward at the same polling place so as not to disenfranchise a voter. Based on the Clerk's testimony and discussion of the GAB directive by the Board, the Board drew down two blank ballots from Ward 19 (Exhibits #253 and #291) and one blank ballot from Ward 20 and marked it as Exhibit #257.

Location of Recount: The Board of Canvass moved to the Cafeteria of the Administration Center, 515 W. Moreland Blvd., Waukesha

**Name of Municipality: Town of Mukwonago**

**Reporting Unit:** Wards 1, 2, 4 - 10

**Electronic Voting Equipment Test Results:** Not applicable to this Reporting Unit.

**Number of Voters from Registration List:** 2,389

**Number of Absentee Ballot Applications:** 162 (The Board found 165 Absentee Certificates.)

**Number of Probable Absentee Ballots Identified by the Tabulators:** 156

**Notes:**

1. The Town of Mukwonago reported all the results for the entire town that were cast on the Edge DRE machine in Wards 1, 2, 4 through 10. However, there were votes cast in Ward 3 (a separate reporting unit). During the recount, the votes cast were associated to the correct reporting units.

- In the review of the contents of the Rejected Absentee Ballot envelope (brown), the Board determined that a rejected absentee ballot should not have been rejected by the poll workers because it contained a signature on the upper portion of the certificate. The Board counted the vote.

**Exhibits:**

Exhibit #456: Absentee ballot counted by the Board as a vote for Prosser.

Exhibit #457: Absentee Certificate envelope.

**Name of Municipality: Village of Hartland**

**Reporting Unit: Wards 1- 7**

**Electronic Voting Equipment Test Results:** The Board conducted a test of the electronic voting machine according to the procedures set forth by the GAB in the Election Recount Procedures. The Board confirmed the seal numbers on the memory packs and determined that the seals matched the log maintained by the poll workers and the municipal clerk. The Board instructed the municipal clerk to insert the memory pack and run a “zero” tape. The Board then had the clerk run the test deck and printed the results. The Board reconciled the original test results with today’s test results. The test deck was removed from the machine. The tabulators were instructed to manually screen ballots for marks that may not be recorded correctly by the machine. The tabulators then counted the number of ballots by hand before feeding them into to the machine to determine the votes for each candidate.

**Number of Voters from Registration List: 1,223**

**Number of Absentee Ballot Applications: 72**

**Number of Probable Absentee Ballots Identified by the Tabulators: 69**

**Notes:**

1. All wards for the Village of Hartland are at one polling place. There were two more ballots in Wards 1 – 7 than voters. There was one less ballot than voters in Wards 8 – 13. In order to reconcile this difference across the polling place, the Board conducted a draw down of one blank ballot, marked as Exhibit #445, from Wards 1 – 7.

**Exhibits:**

Exhibit #433: Blank ballot.

Exhibit #437: Over-voted ballot. No vote counted.

Exhibit #438: Ballot counted by the Board as a vote for Prosser.

**Number of Voters from Registration List:** 1,176

**Number of Absentee Ballot Applications:** 111

**Number of Probable Absentee Ballots Identified by the Tabulators:** 114

**Notes:**

1. See Note 1 for Wards 1 – 7.
2. The Board counted 111 Absentee Ballot Applications, but 114 probable absentee ballots, noting that there were three less probable absentee ballots as compared to applications in Wards 1 – 7. The Board concluded that this reconciled across the polling place.

**Exhibits:**

Exhibit #447: Ballot counted by the Board as a vote for Prosser.

Notes:

1. For the record, the Board notes that Ward 9 for the Village of Mukwonago is entirely in the County of Walworth.
2. Steven A. Braatz, Jr., the Clerk for the Village of Mukwonago, testified to the Board about nineteen spoiled ballots from Wards 1 through 8. He testified that he has been the Clerk for ten years. The practice in the Village of Mukwonago is to place the spoiled ballot in the envelope and issue a new ballot to the voter. As for the remade ballots, he was taught never to write on the ballot that indicates tracking of the votes.

Notes:

1. The Board called Melissa Klein, Clerk for the Town of Ottawa, to testify to a series of ten ballots with only one set of initials. She did not have an explanation other than a high volume of voters. Based on actions of the Board previously in the recount process, the Board decided to count the ballots. Nine votes for Prosser and one vote for Kloppenburg. No objection from either side.
2. Melissa Klein, the Clerk for the Town of Ottawa, also testified to the Board about the DRE scroll tape from election morning. The machine "grayed out" early on election morning and the Clerk called Larry at Command Central. The machine could not print so the Clerk tallied the two votes cast by the poll workers separately on a piece of paper and called it into the County Clerk. The tabulators found the note attached to the poll lists and a note from the County Clerk's office about the edge machine not working.

**Notes:**

1. The Board began the recount of this reporting unit on May 11, 2011 and completed it on May 12, 2011.
2. The Kloppenburg representatives objected to the counting of the ballots in Ballot Bag 1 of 3 for the Town of Vernon, Wards 2 – 5 based on the condition of the bag. The Board opened the bag from the bottom, preserved it in Exhibit #477, and proceeded to count the ballots separately.

The Kloppenburg representatives also objected to the counting of the ballots in Ballot Bag 3 of 3 for the Town of Vernon, Wards 2 – 5 based on the condition of the bag. The Board opened the bag from the bottom, preserved it in Exhibit #477, and proceeded to count the ballots separately.

The Board allowed testimony from the Clerk as to the chain of custody of the ballots and ballot bags on election day and thereafter. The Board compared the election machine tape to the recount of the ballots conducted by the Board and determined that there is no evidence of improper handling of the ballots and the votes should be counted. The Board accepted the votes and noted that in the recount each of these candidates received a few more votes as compared to the election machine tape during the hand counting in the recount process.

1. The Board began work on this reporting unit on May 11, 2011 and completed it on May 12, 2011.
2. The Kloppenburg representatives objected to the counting of the ballots in Bag 7 of 10 for the Town of Waukesha. The bag was marked as Exhibit #488, and the Board decided to count it separately.
3. On May 12, 2011, the Clerk for the Town of Waukesha, Jamie Salentine, appeared before the Board and testified about several ballots with no initials. She explained that staff are instructed to sign all ballots and double sign those at the polling place.
4. The Kloppenburg representatives objected to the ballots marked as Exhibits #491, #492, #493, #494 and #495 because they did not contain initials. Based on the Clerk's testimony and prior practice, the Board accepted the ballots.
5. The Kloppenburg representatives objected to the ballots marked as Exhibits #497 and #498 because they did not contain initials. Based on the Clerk's testimony and prior practice, the Board accepts the ballots.

- The Board made the finding that the recount is correct for the Town of Waukesha based upon the tally sheets, the reconciliations of the poll books, the separately counted ballots, and the tape from the machine on election night. The Board accepted the vote count on the recount.

**Number of Probable Absentee Ballots Identified by the Tabulators:** 12

**Notes:**

- The Board commenced the recount of this reporting unit on May 11, 2011 and completed it on May 12, 2011.
- The Board received a letter from Barbara Woppert, Village Clerk for the Village of Big Bend, which was marked as Exhibit #485. The letter is regarding 22 ballots from the April 5, 2011 election. In preparing for the special election in May, she found 22 ballots in the write-in bin from the April 5, 2011 election. The machine had been kept secure since the election. She bagged the ballots in front of her deputy clerk

and delivered them to the County Clerk's office on April 26, 2011. The Clerk was present and provided testimony to the Board. She testified that the votes were recorded in the machine on April 5, 2011. The Board determined that the 22 ballots were part of the April 5 election and had been secured since that date. The Board decided to count the ballot bags separately and compare to the machine count. The Board accepted the results of the recount.

3. The Board heard testimony from the Clerk, Barbara Woppert, regarding Exhibits #510 and 511, two absentee ballot certificates. The Clerk recalled both voters coming in to her office. She thinks they filled out the information and put it on her desk. She was doing something else, picked them up and put them in the safe. The Clerk did not sign her portion at the bottom or see that one of them hadn't signed. The Clerk knows these people.

The Board examined the documents and noted that one of the voters used cursive for his name, it just was not in the correct place. The Board determined the situation involved clerk error, especially when she knows the people and knows they were in her office. The Board decided to accept the votes.

**Exhibits:**

Exhibit #485: Letter from Barbara Woppert, Clerk for the Village of Big Bend, dated April 26, 2011.

Exhibit #489: Ballot bag 1 of 1 that contained the 22 ballots found in the write-in bin by the Village Clerk.

**Number of Voters from Registration List: 1,461**

**Number of Absentee Ballot Applications: 127**

**Number of Probable Absentee Ballots Identified by the Tabulators: 121**

**Notes:**

1. The Board asked the Clerk for the Village of Pewaukee, Susan Atherton, to testify regarding the three ballot bags and seals for the reporting unit. She explained that there was a recount in the Village for the office of Village President on April 12, 2011. She used the same ballot bags to rebag the ballots after the recount, but used new seals. The board noted that the new tags on the bags matched with the seal documentation record. The Board accepted the Clerk's explanation and opened the bags to count the ballots.
2. On May 13, 2011, the Board started the recount of this reporting unit. On May 17, 2011, the Board again worked to recount the ballots. The poll books did not reconcile due to a discrepancy of two voters on the poll list as compared to the number of ballots. In reconciling the poll books on May 17, the Board noted two missing numbers – 546 and 582. The Clerk produced the voter slips for these two numbers, testifying that because she had the slips, it follows that the two voters received ballots. There were also remade ballots in the pool of ballots that were hand counted. The tabulators located four ballots with serial numbers on them that matched the remade ballots.

**Exhibits:**

Exhibit #528: Ballot counted by the Board as an over-vote because voter intent was not clear.

1. The Kloppenburg representatives objected to Bag 1 of 3 for the Village of Wales due to the condition of the bag. The Board counted the contents of the bag separately. The bag was marked as Exhibit #539.

The Board counted the ballots and examined the machine tapes from election night for the Village of Wales. The Board found that the vote count matched exactly from the original canvass and accepted the recount for the Village of Wales.

2. The Board heard the testimony of Gail Tamez, Clerk for the Village of Wales, regarding the absentee ballot certificates marked as Exhibit #550 and #551. It was clerical error not to witness the two signatures because they were done in the office in person, and the Clerk recalls the husband and wife voters being in the office for this purpose. The Board accepted the two ballots.
3. The Board also heard the testimony of the Clerk indicating clerical error in not initialing the absentee ballot marked as Exhibit #546. The Board accepted the ballot.

**Number of Probable Absentee Ballots Identified by the Tabulators:** 64

**Notes:**

1. The Kloppenburg representatives requested that Ballot Bag No. 2 of 8 be counted separately due to the condition of the bag. The objection was later withdrawn.

- The Board noted during the recount that the number of ballots counted for this second reporting unit in the Village of Sussex, Wards 3, 10, 11, 14, 16, 17, 21 and 22, varied from the count with the original canvass. Likewise, the recount number of ballots varied for the third reporting unit in the Village of Sussex, Wards 6-9, 13, 18, and 19.

The Board took testimony from Susan Freiheit, Clerk for the Village of Sussex. A letter from her was marked as Exhibit #540. She explained that at the end of election night when the chief inspectors were bagging the ballots, the ballots of these two reporting units were mixed. The ballots went from one line at the polling place to another. All the ballots are white, and they are all the same ballot. The only way to tell the difference would be checking the initials of the poll workers from each line. You would not be able to tell the absentees because they all have her initials. They tried to correctly separate the ballots, but still had a discrepancy.

The Board examined the election night tapes for all four reporting units in the Village of Sussex and determined that the vote totals were correct for the entire Village. The Board examined the votes of the second and third reporting units. Prosser lost 27 votes in the second reporting unit and gained 27 votes in the third reporting unit. The Board accepted the Clerk's explanation of the mix up with ballots and accepts the vote count for all reporting units across this municipality.

Electronic Voting Equipment Test Results: For the central count absentees for the City of New Berlin, Wards 1 – 26, the Board conducted a test of the electronic voting machine according to the procedures set forth by the GAB in the Election Recount Procedures. The Board confirmed the seal numbers on the memory packs and determined that the seals matched the log maintained by the poll workers and the municipal clerk. The Board instructed the municipal clerk to insert the memory pack and run a "zero" tape. The Board then had the clerk run the test deck and printed the results. The Board reconciled the original test results with today's test results. The test deck was removed from the machine. The tabulators were instructed to manually screen ballots for marks that may not be recorded correctly by the machine. The tabulators then counted the number of ballots by hand before feeding them into to the machine to determine the votes for each candidate.

Notes:

1. The Kloppenburg representatives objected to the Board counting 13 ballots that had one set of initials because the ballots were scored to make them ready folded and might have been initialed in advance of election day.

The Board heard the testimony of John Buellesbach, Chief Inspector for District 2, City of New Berlin, Wards 4, 5, 6 and 7. He testified that they ran low on ballots and called for the absentee ballots in Ward 5. City Hall sent them every ballot they had. The ballots did not have initials on them when he received them. The ballots were initialed the day of the election.

The Board marked the objected-to ballots as Exhibits #556, #557 and #558. The Board found that, based on the testimony of the Chief Inspector, the ballots were not pre-marked, were correctly used and will be accepted by the Board.

2. Exhibit #589 was a rejected Absentee Ballot Application/Certification reviewed by the Board. The Board accepted it and counted the ballot.

2. The Kloppenburg representatives objected to Bag 4 of 7 for the City of New Berlin, Wards 12, 13, 14, 15, 27 and 28 based upon the condition of the bag. The Board agreed to count the ballots from this bag separately.

After reconciling the poll books and counting the ballots, the Board found that there was no evidence of a break in the chain of custody of the ballots, and the votes on the recount exactly match the votes on the original canvass. Therefore, the Board accepted the total votes on recount and overruled the objection to the bag.

Notes:

1. The Board began the recount of this ward on May 14, 2011 and concluded it on May 16, 2011.
2. The Kloppenburg representatives objected to Ballot Bag 4 of 7 for the City of New Berlin, Ward 15, based on its condition. The Board agreed to separately count the ballots in this bag.

The Board counted the ballots and compared the results to the original canvass results. The Board overruled the objection, finding that the condition of Bag 4 of 7 did not have any impact on the recount totals for the ballots.

1. The Board began the recount of this ward on May 14, 2011 and concluded it on May 17, 2011.
2. The Kloppenburg representatives objected to Ballot Bags 1, 5 and 8 for the City of New Berlin, Wards 16, 17, 18 and 19. The Board agreed to count the ballots separately based upon the condition of the bags. The Board marked the objected to bags as Exhibit #554.

The Board heard the testimony of Don Whelan, Chief Inspector for District 5, City of New Berlin, Wards 16, 17, 18 and 19, regarding the seals on several ballot bags. He testified that they had trouble getting the red seals around the crown of the bags.

The Board examined the election night tape from the machine and marked it as Exhibit #643. The Board noted that when the votes from the three challenged ballot bags are added to the ballots that were not challenged, the recount was the exact same number that was reported on election night before the ballots were bagged and the exact same number as the original canvass. The Board accepted the recount numbers.

2. The Board examined an absentee certificate and ballot, marked as Exhibit #645, that was within the envelope of rejected absentee ballots because it had no witness. The Board heard the testimony of the Clerk for the City of New Berlin who stated that the type of official absentee ballot application used could only be used in the Clerk's office; therefore, the Clerk's staff must have neglected to witness the signature. Based upon the testimony of the Clerk, the Board decided to count the ballot.

**Notes:**

1. The Board began the recount of this reporting unit on May 16, 2011 and completed it on May 18, 2011.
2. Bag 2 of 2 for Wards 1 and 2 in the Village of Menomonee Falls had a six inch tear in the middle of the back of the Ballot Bag; therefore, the Board decided to count the ballots from this bag separately. The bag was marked as Exhibit #633.

The Board counted the ballots. The Board also read the tape run from the machine on election night. Both match with a count of 844 ballots. The Board accepted the recount numbers and found that the condition of the objected-to bag did not affect the overall integrity of the ballots or the chain of custody because the reconciliation of the poll books and the voters and the numbers are consistent.

**Notes:**

1. The Board began the recount of this reporting unit on May 16, 2011 and finished it on May 18, 2011.

2. The Kloppenburg representatives objected to Ballot Bags 1 of 3 and 2 of 3 for the Village of Menomonee Falls based on the condition of the bags, which included duct tape on the side. The Board agreed to count the ballots of each bag separately and marked all three ballot bags from this reporting unit as Exhibit #631.

The Board took the testimony of Janice Moyer, Clerk for the Village of Menomonee Falls. She had contacted the chief inspector for this polling place, and he said the duct tape was put on as reinforcement.

The Board opened the bags and examined under the duct tape from the inside of the bags to note that the tape appeared to cover a slit in each bag.

The Board proceeded to count the ballots. The Board also reviewed the tape from the machine that was run on election day.

The Board found that in Wards 1 and 2 and also in 3, 9 and 10 that the condition of the objected-to bags, including the duct tape, did not affect the overall integrity of the ballots or the chain of custody because the reconciliation of the poll books and the voters and the numbers are consistent.

Electronic Voting Equipment Test Results: Not applicable to this Reporting Unit.

Number of Voters from Registration List: 811

Number of Absentee Ballot Applications: 41

Number of Probable Absentee Ballots Identified by the Tabulators: 39

Notes:

1. The Board began the recount of this reporting unit on May 17, 2011 and finished on May 18, 2011.
2. The Kloppenburg representatives objected to the condition of Ballot Bag 3 of 3 for the Village of Menomonee Falls, Wards 5, 6 and 13. The Board agreed to count the ballots of this bag separately.

The Board counted the ballots and reviewed the election day tape from the machine. Because the number of ballots and votes are the same for each, the Board found that the challenged bag did not affect the count and the chain of custody was not disturbed.

Number of Probable Absentee Ballots Identified by the Tabulators: 71

Notes:

1. The Board began the recount of this reporting unit on May 17, 2011 and finished on May 18, 2011.
2. The Board noted the last voter number was 903, the tabulators counted 900 ballots and 5 ballots were turned over to the Board for the hand count. Therefore, the Board did a draw down of ballots pursuant to the statutes, using the two blank ballots from the handcount which were Exhibit #699 and #704.

After the Board conducted the draw down, the Kloppenburg representatives objected to the manner in which the Board conducted the draw down. They wanted the ballots marked as Exhibits #705 and #706 drawn down instead because they would not go through the machine and could otherwise be considered spoiled. The Board called this an alternative approach, but not the process chosen by the Board because it involved too much guesswork or speculation that those ballots were either remade or spoiled.

Exhibits:

Exhibit #695: Ballot with one initial. Counted by the Board as a vote for Prosser.

Exhibit #699: Blank ballot. Drawn down by the Board.

Exhibit #704: Blank ballot. Drawn down by the Board.

Exhibit #705: Ballot counted by the Board as a vote for Prosser.

Number of Probable Absentee Ballots Identified by the Tabulators: 96

Notes:

1. The Board began the recount of this reporting unit on May 17, 2011 and completed it on May 18, 2011.
2. The Board noted that the security tag from Ballot Bag 1 of Wards 14, 15 and 21 in the Village of Menomonee Falls appeared to have been switched with the tag from Ballot Bag 2. The conditions of the bags are sufficient and the security tag numbers are on the log. The board decided to accept the bags and count the ballots. The Board found that the switching of the security tags was human error.
3. The Deputy Clerk submitted a letter dated April 19, 2011 regarding Remade Ballot No. 1 and No. 2. The transmittal envelope was marked "944" on one and "945" on the other. The Board concludes that these were missing from the poll books. The Board reconciled the poll list to 1,415, which was also the last voter number.

Exhibits:

Exhibit #696: Two Absentee Applications/Certifications for Voter Nos. 944 and 945, their e-mail ballots and the letter from the Deputy Clerk.

1. The Board began the recount of this reporting unit on May 17, 2011 and completed it on May 18, 2011.
2. The Kloppenburg representatives objected to the condition of Bag 1 of 3 for Wards 20 and 22 in the Village of Menomonee Falls. The Board agreed to count the ballots in this bag separately. The Board also decided to count separately the contents of Bag 3 of 3 due to the wing opening at the top of the bag.

The Board counted the ballots and reviewed the machine tape from election night. The numbers reconciled, therefore, the Board found that the chain of custody was not disturbed with respect to the challenged bags.

3. The Kloppenburg representatives objected to the Board counting a no-initial ballot. The Board marked the ballot as Exhibit #707 and counted it as a vote for Prosser.

Exhibits:

Exhibit #707: No initial ballot counted by the Board as a vote for Prosser.

**Name of Municipality: City of Muskego**

**Reporting Unit: Wards 1 - 3**

**Electronic Voting Equipment Test Results:** For the City of Muskego central count absentee, the Board conducted a test of the electronic voting machine according to the procedures set forth by the GAB in the Election Recount Procedures. The Board confirmed the seal numbers on the memory packs and determined that the seals matched the log maintained by the poll workers and the municipal clerk. The Board instructed the municipal clerk to insert the memory pack and run a "zero" tape. The Board then had the clerk run the test deck and printed the results. The Board reconciled the original test results with today's test results. The test deck was removed from the machine. The tabulators were instructed to manually screen ballots for marks that may not be recorded correctly by the machine. The tabulators then counted the number of ballots by hand before feeding them into to the machine to determine the votes for each candidate. The test was done on May 18, 2011.

**Number of Voters from Registration List: 1,125**

**Number of Probable Absentee Ballots Identified by the Tabulators: 81**

**Notes:**

1. The Board began the recount of this ward on May 18, 2011 and concluded on May 19, 2011.
2. The Kloppenburg representatives asked the Board to separately count the ballots in Bag 1 of 2 for Wards 1 – 3 based upon the condition of the bag.

Exhibit #685 is the clear plastic bag that will contain any challenged ballot bags from the City of Muskego.

The Board took the testimony of Clerk for the City of Muskego, Sharon Mueller. She said the bags were completely cinched when she put them in the bin on election night.

The Board counted the ballots and reviewed the tape from the machine on election night. The recount results matched exactly with the original canvass results and were confirmed by the election night tape. The Board found that the condition of the challenged ballot bag did not affect the chain of custody or integrity and, therefore, the Board accepts the recount results for this reporting unit.

2. For Wards 12 and 13, the Board counted the ballots and examined the tape from the machine from election night. The only ballot bag in question and objected to by the Kloppenburg representatives was from the polling place for the hand count. The numbers from each reconciled. The Board found that the partially sealed Bag 3 of 3 did not affect the chain of custody or the count of the ballots. The Board accepted the totals for the recount.

1. The Board started to recount the ballots for this reporting unit on May 18, 2011 and concluded on May 19, 2011.
2. Ballot Bag No. 1 of 4 for the City of Muskego, Wards 14 and 15, was not properly sealed and the Board decided to count it separately. This bag was placed inside Exhibit #685.

The Kloppenburg representatives asked the Board to separately count Ballot Bag Nos. 2 of 4 and 3 of 4 for the City of Muskego, Wards 14 and 15, based upon the condition of the bags. These bags were placed inside Exhibit #685.

The Board counted the ballots and then examined the tape run on election night from the machine, both of which reconciled with each other. Based on the evidence, the Board found that the partially sealed bags had no break in the chain of custody and no ballots appear to have been added or subtracted from the bags. The Board accepted the recount totals.

**Notes:**

1. The Board commenced the recount of this Ward on May 11, 2011 and concluded it on May 20, 2011.
2. The Kloppenburg representatives objected to Ballot Bag No. 2 for the City of Waukesha, Wards 32, 33, 47 and 52, which is a polling place, based on the condition of the seal. The bag had a seal and a rubber band wrapped around the seal.

The Deputy Clerk for the City of Waukesha, Gina Kozlik, testified to the Board that she recalled the bag. When it came in on election night, the elderly poll workers said they put the extra rubber band on it because of the weight, and it was pulling open a bit. The bag was in the same condition on today's date as when she saw it on election night. She received the bag at the Clerk's office and locked it in the vault.

3. Another ballot bag from this polling place had a tag number that was two digits different from the bag number. The Clerk testified that she recognized the signature as that of her Chief Inspector. They did not double check the number from the seal in the bag on election evening so it may be that he just mis-numbered it.

The Kloppenburg representatives asked that the bags be counted separately based on the objection and want to reserve the right to ask that the ballots not be included in the recount.

The Board was satisfied with the Clerk's testimony and, therefore, opened the bags to count them separately. The polling place of Wards 32, 33, 47 and 52 will ultimately be reconciled.

The ballot bags were marked as Exhibit #508.

The Board read the election night machine tape for all wards and found that the chain of custody for the challenged bags did not affect the count. The Board accepted the count for the four wards.

4. The Kloppenburg representatives objected to counting the ballot marked as Exhibit #515 because it had no initials. The Board counted it as a vote for Kloppenburg.
5. The physical number of voters was 712, but the Board counted 713 ballots for this ward. The Board reconciled this against Ward 47 at the same polling place. In Ward 47, the physical number of voters was 62, but the Board counted 61 ballots.

**Notes:**

1. The Board commenced the recount of this Ward on May 12, 2011 and concluded it on May 20, 2011.
2. The Kloppenburg representatives objected to Ballot Bag 3 of 4, marked as Exhibit #512, based upon the condition of the bag. They asked that the bag be preserved by opening the bag from the side.

Gina Kozlik, Deputy Clerk for the City of Waukesha, was present and testified to the Board. The bag came from the West High School polling place, and the Deputy Clerk recognized the signatures. She testified that tears in the bags can happen because there are many polling locations, and the bags get loaded into 40-gallon bins. She estimated that there were 300 to 400 ballots in this bag and it was much fuller than other bags.

The Board agreed to preserve the bag and count the ballots separately. The Board later accepted the recount of votes and found that the partially sealed bag was not a factor in the count and the votes reconciled.

**Exhibits:**

Exhibit #512: Ballot Bag 3 of 4 for the City of Waukesha, reporting unit of Wards 34, 35, 36, 44, 45, 49, 51 and 58.

Exhibit #517: Ballot counted by the Board as a vote for Kloppenburg.

Exhibit #519: Reconstructed ballot found in the rejected absentee ballot envelope, marked with "Reconstructed #1 from AB ballot". Consistent with the original ballot. Vote for Kloppenburg.

---

The Prosser representatives submitted Exhibit # 824 to the Board. The exhibit was a set of excerpts from the minutes of Dane County in the statewide recount process. The Prosser representatives argued that some of the actions that the Kloppenburg representatives asked the Board to take would cause a violation of the Equal Protection Clause. The Board heard brief arguments from both sides and accepted the exhibit into the record
