**State of Wisconsin
Before the Elections Commission**

The Complaint of Ken Charneski Complainant, proceeding under Wisconsin statute 5.06 against respondent:

Kronenwetter Village clerk Bobbi Birk-LaBarge
Village of Kronenwetter
1582 Kronenwetter Drive,
Kronenwetter, WI 54455
715 693 4200
bbirklabarge@kronenwetter.org

This complaint is under Chapter 7; 7.15 (1), 730.

Complainant alleges multiple and ongoing violations of Statute 7.30, in which the Defendant, Village Clerk Bobbi Birk LaBarge (LaBarge):

1. Removed and/or disregarded available duly appointed election inspectors, both Republican and unaffiliated, in at least 4 separate elections and primaries, and instead arbitrarily hired workers for those positions "off the street" who were not submitted by either of the main political parties, nor were they approved by the Village Board.
2. There were two other elections which likely involve similar violations, but for which LaBarge has not provided worker schedules (see EXHIBIT Q).
3. Apparently no effort was made to achieve the statutory balance between Republican and unaffiliated workers at any of the elections conducted by Ms LaBarge.
4. Split shifts without a Village Ordinance to authorize such action, in violation of .

5. Openly admitted to removing at least one election inspector without cause, documentation, or notification. (see EXHIBIT K)
6. For all practical purposes, she removed other workers from the Republican list, as some of them have **never been called in to work the polls, while others, often unapproved, have been called in numerous times.**
7. Submitted the election worker names to the Village Board for approval, without breaking down the list by party affiliation.
8. Removed names from the list submitted by the Republican Party, before forwarding that list to the Village Board for approval.
9. Hired at least one worker who is not a resident of the municipality, in preference over other approved workers from within the municipality who, according to statute 7.30 (4) (c), must be used first. There may be other workers from outside the municipality being being given preference as well. We do not know, because Clerk LaBarge has not provided information on any of the unaffiliated workers for us to confirm who they are, or where they live.(see EXHIBIT Q)

Background and Facts

EXHIBIT A shows the list of election inspectors approved by the Village Board in December of 2021.

EXHIBIT B shows the worker schedule for the August 9, 2022 primary.

EXHIBIT C shows highlighted, the workers on the list used for that primary.

In addition to those approved workers highlighted on the list, the schedule names **2 other people** who are **unknown and unappointed**: Patty Tikalsky and Lucene Udulutch.

EXHIBIT D shows the worker schedule for the November 8, 2022 election.

EXHIBIT E shows highlighted, the workers on the list used for that election.

In addition to those approved workers highlighted on the list, the schedule names **6 other people** who are **unknown and unappointed**: Cindi Falkowski, Faye Buchberger (in two positions), William Gau, Abby Wallis, Dennis Mueller, and Carol Howard (in two positions).

EXHIBIT F shows the February 21, 2023 primary worker schedule.

EXHIBIT G shows highlighted the workers used in that election.

In addition to those approved workers highlighted on the list, the schedule names **5 other people** who are **unknown and unappointed**:

William Gau, Cindi Falkowski, Carter Coyle (in 2 positions), Dennis Meuller, and Lucene Udulutch.

EXHIBIT H shows the Aprl 4, 2023 election worker schedule.

EXHIBIT I shows highlighted the workers used in that election.

In addition to those approved workers highlighted on the list, the schedule names **9 other people** who are **unknown and unappointed**:

Patty Tikalsky, Audrey Gray, Geraldine Kowalski, Abbi Wallis, Kay Palmer, Faye Buchberger, Cindi Falkowski, Dennis Meuller, and Lucene Udulutch.

Some workers were used several times, and some were never used, but instead were displaced by unapproved workers that the Clerk LaBarge arbitrarily brought in.

Another violation noticable in all schedules, is that Labarge also has assigned split shifts for the workers without a Village Ordinance authorizing her to do so.

In March of 2023, an election worker called me wondering why he was only called for 1 primary and never called back. EXHIBITS J and K email threads, show LaBarge's reticence to give straight answers to my questions. She appears confident that she can hire whoever she wants to, with the statement

about removing workers at will:

"If he was taken off, it was most likely for a good reason. **I, myself, removed Dan Joling in the best interest of the elections. That's the clerk's choice.**" (EXHIBIT K)

EXHIBIT L is an email thread where LaBarge is contacted by the removed election worker's wife, who was looking for answers. I do not believe that she got the answers she was looking for. LaBarge's answers are informative as to her defensive attitude, for the purpose of this complaint.

EXHIBIT M is another email thread in which I asked LaBarge to contact WEC with the question of hiring outside poll workers. The response of the WEC is significant to this complaint, as it appears to confirm the misguided attitude that LaBarge bases her non-compliant actions on.

EXHIBIT N Is where I tried one more time to get an answer as to what it was in the training information that led her to believe that she could hire whoever she wanted for election inspectors. Her only reply was "I have attached State Statutes Chapter 7 for your reference."

The rest of the email thread explains what happened there. Again, she refuses to explain her actions.

Village Board Meeting

On December 11, 2023, the Village Board meeting packet contained the election worker list and resolution for approval. At this meeting LaBarge still maintained that she has the authority to hire and fire whoever she wants to, when clearly the law says she does not. I informed her again, that State statutes regulate this for the sake of honest elections.

EXHIBIT O shows the list and resolution. The list is not broken down between Republican, Democrat, and unaffiliated workers as instructed by the October 3, 2023 WEC memorandum sent to Clerk LaBarge.

At the December meeting I asked LaBarge why she combined all the election workers' names into one list, rather than divided by political party as usual. I explained that identifying election workers by party affiliation is the whole point of the statute regarding this process.

Her answer was:

"I contacted the municipal clerks from all around us - most of them do not put the list on there to protect the privacy of the political party of these folks so they are not persuaded in any way"

Because her reply made no sense at all to me, and her decision ran contrary to the purpose of the statute and the public perception of fair elections, I later checked the meeting packets of **Mosinee, Marshfield, Schofield, Rothschild, Weston and Wausau.**

I discovered that what she told the Board was not true, and that **Rothschild is actually the only place** of the surrounding municipalities that combines all the election workers names into one list rather than separated by political party. All the other five surrounding municipalities plus Wausau not only separate the names on the list by affiliation, but two of them give the workers addresses, and one even gave the phone numbers.

So, it appears that this was a personal, arbitrary decision on Ms Birk-LaBarge's part, to blend all the names into one list, and then she chose to lie to the Board about her reason for doing so.

This causes great concern, because concealing the political party affiliation of the election inspectors makes it much more difficult for the public to know if the clerk is bringing in a balance of inspectors from each party to work at the elections, and this concealment works against the public interest by casting doubt on the integrity of Village elections. Without opposing party members to keep an eye on each other, the potential is there for election fraud.

Furthermore, we have no information at all about the residency of the unaffiliated people on the list.

EXHIBIT P is an email thread inquiring about the party lists and the unaffiliated list. LaBarge's answers indicate she keeps a "closed shop" in that the public is not notified of opportunities to serve as an election inspector, that there are no applications taken to allow new people to get involved, or to know anything about the unaffiliated inspectors who have worked for many years. Only those already involved from previous years are notified.

This is concerning, as it appears to add to the pattern of the Village Clerk controlling access to these worker positions which allows for her to arbitrarily pick her favored people to work the polls, regardless of whether or not the parties have nominated them, or the Board has approved them. This is evident from the pattern shown in EXHIBITS A-I.

LaBarge also states that she does not create the worker schedules, but that is done by the Chief Election Inspectors the morning of the election. This does not make sense, as the workers need to know this information days ahead of time to schedule their day. This also conflicts with the Village Board resolution which states:

"BE IT FURTHER RESOLVED, that the Village Clerk is directed to schedule working hours for Election Inspectors and Chief Election Inspectors accordingly; and"

The point is, that her answers are not making sense, which gives cause for concern that the obfuscation as to who creates the work schedules, missing schedules, party affiliation, and where the unaffiliated workers come from, all tend to serve the purpose of facilitating LaBarge's ongoing habit of bringing in her favored but unapproved workers. Indicating a deliberate intent to ignore the statutes that specifically direct who can be used as election inspectors.

Another Violation

EXHIBIT Q is the list of workers submitted by the Republican Party for approval. The reason 3 of those names are not included in the list in EXHIBIT O, is because LaBarge did not immediately forward the list to the Village President as required by 7.30 (4) (b) 2.a, b, but instead contacted those workers on the list, and one way or another found reason to remove 3 of them before submitting the final list to the Board for approval.

Yet Another Violation

With the December 11 Village Board approval of the new list of workers (EXHIBIT O), LaBarge has gotten her favorite, previously illegal poll workers on the list approved by the Village Board.

However, even with a list of new and willing approved workers, LaBarge arbitrarily again brought in an unknown, unapproved worker Cindy Aucutt to work the February 20 primary.

She also brought in Cindy Falkowski, a non-resident of the municipality, to work the election, when 7.30 (4) (c) states that non-residents, even when approved by the Village Board, can be used only as a last choice, when no other approved worker is available.

Summary

The facts are documented - Ms Labarge has a history of bringing in unauthorized election inspectors to every election that she has conducted. It is clear to me that this practice is not legal as I explained to her early last summer, and again at the December Village Board meeting.

The intent of statute 7.30 is to have a system that has safeguards for the integrity of the election process. These safeguards appear to have been missing in Kronenwetter since LaBarge took office.

LaBarge's answers at the December 11 Board meeting and her expressed disregard for regulations only raises doubts and creates the lower confidence that she complains about in her email.

LaBarge did a channel 9 interview about January 3 or 4, in which she advocates for voters to bring in "new faces and new ideas", in other words- replace the incumbents. She also "likes" social media posts that disparage the incumbents.

She said she was misquoted or taken out of context, but that appears to be another lie to cover for her behavior, as again the evidence indicates otherwise. In any case, it seems to be inappropriate, biased behavior for an official who is in charge of supposedly fair elections.

What is the pool of trained volunteers that you have to choose from? Who is currently conducting the absentee voting?

I'm asking because one volunteer says he was disparaged in a comment by Sashe last year, and another has asked why the determination has not been made yet.

Isn't there a timeline that this process has to follow? And how are the people for the final list chosen? Are all volunteers from Kronenwetter?

I am not "mico-managing" as apparently I have been accused of by Mr. Voll.

I am just following up due to the requests, and want to make sure we don't get unnecessary attention in the media if things are not done exactly perfect.

Can you forward me the letter you sent to Dan Joling that removed him from his election inspector position?

Wait,

Do you know 100% he was actually removed by Sashe or by Cindy? He was on the list as of 12/21/21. He worked the Feb 22 primary, so he obviously took the training as required. You said you never heard of him and he is not on the list. He would have been removed between the primary and the Spring Election of 2022, so that would have been Sashe who was the clerk. He should have a documented letter as such. He does not, that is part of the problem. If there was such a letter, I thought that there would be a copy in your files somewhere, that's why I asked, as this would be what he was looking for. Have you asked him for that? When you originally approached me with this question, I said I assumed that maybe the clerk removed him but I have no knowledge of that, hence why I assumed.

Where are you getting any of this information from? Is this one-sided information coming from James Wysocki himself and no one else? Yes, and his wife was with him and also heard the "trouble" comment from Sashe. This puzzled them both.

As far as forwarding this information to the States Elections commission, and if this topic is such importance to him that it has been blasted on social media I have not seen anything about it on social media. They talked to me directly. leaving you to feel the need to step in and become his problem solver (forgive me for being blunt but you have enough on your plate as it is) , he, himself should contact them and then they can contact me. His intent was initially to just find out what happened and perhaps get things straightened out as he never did get an explanation for the comment. I said I would check it out, as I thought it was a matter of serious concern, and here we are. Don't let it interfere with your other work, however. As you suggest, I'm sure the EC will deal with it, or tell him that it is not worth bothering with.

I can tell you, just because they are appointed by the board does not mean they will be called to work every election either. That is a separate issue. which the statute that I sent already covers. The main point here is that the name is not on the list, which has made it impossible for him to ever be called in as the statute requires.

I can tell you, in all honesty, checking into this is not my top priority this week or next week. As a newer clerk, this is going to take some digging into and background research. I have an election to reconcile and close, payroll, retirement paperwork, taxes to pay, agendas to put together, new hire paperwork to finish, new employees to meet with etc., this week and with us being closed tomorrow I am loosing a day already. It is not meant to be a priority, or a burden on your time. I originally thought it would have been a relatively simple matter. I think your suggestion for him to take it to the State is perhaps the best thing, so let's have them deal with it since this is their specialty. I'll leave you alone to get your other work done.

Thanks,

Ken

Please understand, I will look into this but I need time.

Bobbi,

Mr. Wysocki never got a notice of any kind after he worked at the Feb, 2022 primary. He was not called back for the Spring Election, and apparently was removed from the list for some reason.

The apparent intent of the statutes here is to create public trust in the system by preventing personal biases of key public officials from interfering with a fair election process.

The removal of Mr. Wysocki's name from the list of inspectors without documentation as to a valid reason for the removal given in 7.30 (6) (c), appears to me to be a breach of the public trust. Aside from election laws 7.30, the removal also appears to be a violation under 946.12 (2) for misconduct.

As a public official, the former Village Clerk was assumed to know the duties of her job, and to know that she did not have the authority to remove anyone that she considered to be "trouble".

Perhaps a good start would be for you to forward this email thread to the State Election Commission to get their opinion as to whether or not this situation is something that they will want to follow up on.

Do you see any other names beside Wysocki's on the list from Dec 21, 2021, that are not on your current list of inspectors?

Thanks,
Ken

I honestly do not know the story behind that.

Do they have anything in writing from her removing them or were they just never called back to assist with the change over in clerks? They weren't on any list I had to work with.

These people are appointed by the Board as election inspectors according to State Statutes. see the attachment.

I don't see where the Clerk could remove anyone that the Board appointed, except for reasons in (C) below. So she would have to have written some kind of report explaining why Mr. Wysocki would have been removed.

Do you know of any other statutory grounds for removal?

7.30 (6) OFFICE TENURE.

(a) Except as provided in par. (am), the appointed election officials shall hold office for 2 years and until their successors are appointed and qualified. They shall serve at every election held in their ward during their term of office.

(c) If any election official appointed under this section lacks the qualifications set forth in this section, fails to attend training sessions required under s. [7.15\(1\)\(e\)](#) unless excused therefrom, is guilty of neglecting his or her official duties or commits official misconduct, the municipal clerk or board of election commissioners shall summarily remove the official from office and the vacancy shall be filled under sub. They stay as election inspectors until they no longer want to be. They are provided 6 hours of training by the clerk or deputy clerk every two years as required by law to maintain their certification.

If he was taken off, it was most likely for a good reason. I, myself, removed Dan Joling in the best interest of the elections. That's the clerk's choice.

Bobbie-Burk-LaBarge: First to answer to your comment on why I am texting: We have been married 58 years and Jim's states "The two shall become one". Jim appoints me. He is right next to me. You asked where is the proof on name removed, really. You have stated this. You stated: Jim is not on the list must have been removed. You also said If taken off must have been a good reason. How can you assume this? A one time appearance, never called back. read the State Statue again. Must be a good reason, MUST be docket, Must send letter. I do not remember if this statue states Unlawful removal may be a crime. Does it not also state term is to be 2 years? The Primary was Feb. 2022 and then the Spring Election after. Jim was told by the Clerk which at that time was Sasha. And Sasha's use of "there is trouble" was at the Spring Election. It sounds a little sarcastic to me for asking if she was Joking or serious. You state NO letter exist why Jim was removed. Is this not a violation of the State Law? In my opinion the Clerk or ? decided to remove Jim for there own Personal reason and did not want a paper trail knowing it was not lawful. Our opinion is Jim was treated unfairly. This needs to be corrected and made right so this does not happen again just because someone thinks they can. You stated You removed Dan Joling in the best interest of the election. The Clerks choice. Hard to believe The Chief of our First Police department removed. Remember Statue . A letter MUST be sent. And if you talked to Erin she would have told you this. Again we do not know the people there and they do not know us. You offering to include Jim in the 2023 Elections appears to be the correct way to resolve the wrong done to Jim. I was unable to down load the lists. a copy sent would be nice or let me know when copies made i will pick up. 715-693-2644. thank you.

Elaine,

I spoke with WI Elections Commission today after listening to your voicemail you left for me. I will answer your questions as best I can.

Bobbie Birk - LaBarge: I understand you were not in office at the time of this name removal. - Where is your proof his name was removed? I have nothing on file.

The problem is you now are and this falls into your lap. We are following up on the voice mail sent Friday in writing now. - Correct, I am the new village clerk and your voicemail was received.

Jim was a volunteer for working on Elections. Yes, he had the training and worked a Primary in 2022. He was not called for the Election so he called in to make sure he was or was not working to keep that day open. - Which election was he not called for in 2022 that you are referring to?

Jim was told he was not working that there were so many volunteers so he was not needed. - Whom was he told this by and when?

No problem. On Election Day as we walked in up to the table on the left people were sitting and standing. - Which election are you referring to?

A woman said out loud to Jim (There is Trouble) - Who was the woman that supposedly said this?

I looked at her then my husband as Jim said to her (What does that Mean). This was the Clerk and her answer was (Never Mind). - What was the "clerk's" name? and was this supposed statement said in a joking manner or a serious manner?

since then he was never called to perform his lawful duty as an American should. In wondering why, we recently found out Jim was removed from the volunteer Schedule. - Who informed you of this?

We understand there may be a question on whether he was. Bobbie, we have the W 2 from Kronenwetter stating 87\$ Proof enough. - I have the payroll that proves that amount.

We have contacted the State of Wis. Election Commission. She stated to us: No one can be removed except for a very good reason. Then it Must be docketed and a letter Must be sent. We understand this is a serious Election Law 7.30. Also was informed we can check ALL the lists to see who the workers are. - You can send an open records request to me for this.

Are they constantly the same. - No, they are not constantly the same.

She did mention that the volunteers should be of equal number of party's. - That is not correct or you misunderstood what Erin said. It is party and balance based on polling place.

We were told to try work this out with The Clerk first. If no results, call the Election Commission Board Back.

We are requesting answers and copy's on: Who requested the removal of Jim Wysocki from the volunteer election list. - I have no answer for you on this question

Requesting a copy of the required letter on the removal. - If you do not have one, than none exist

A copy of the required letter to Dan Joling. - what letter are you referring to?

Requesting to have copy's or see ALL lists of workers from Feb.2022 to now. - I will take this as an open records request. I have attached the lists.

Please respond in a reasonable time. - Response time within 24 hours of original request.

You ask what is our reason, it's to get answers. - I don't know who asked that but it was not me.

It's to make sure those who want to do there American Duty are able and not able to because of some. - Not sure where that view comes from of "not being able to because of some?"

What I can add is I failed to rotate Republican/Democratic parties due to me not knowing. I was under the assumption I just needed to have the required amount of each party and I followed what was previously done for volunteers at the election prior to me coming on board. I can make sure your husband is included in the 2023 elections if he, himself, is in contact with me when I send the request for workers. I would have liked the voicemail and this email to have come from him since he was the appointed party by the village board and he was affected, not you. I checked for your name on the village board report dated 12/21/2021 and did not see it on there.

My question to her was: What happens when I recruit for additional poll workers outside of that time frame and that were not listed and approved by the board during the village board meeting as mentioned above? Do all new workers hired outside of that time frame **have to be** approved by the board? Or can I train them and utilize them?

Her answer is: The clerk can appoint to fill vacancies.

You can call there and see if she will talk with you.

Ken,

Not adversarial at all. Just saying that Bobbi does not have anything more to share. She has given you what she can. From the email string it does appear as if she does not have any training materials to share and shared the statute with you instead.

The entire process of appointing a poll worker goes back to the state statutes and the election commission.

Plus she is not here – on vacation for a couple days – yet she is attempting to answer your questions in good faith. I will talk to her tomorrow to get a better picture of what went on but right now there's not much more to be said without doing that first.

Subject: Re: [External] Poll Worker

Ms. Manley,

If you wish to take an adversarial position to a constructive effort, then that is your choice. I don't understand the rationality of it because I am only trying to work with Bobbi quietly to correct a problem that I saw as being created at the State level. With Kronenwetter already having had two publicized cases of ballot mistakes in the past year, my effort was aimed at preventing further embarrassment to her or the Village with this latest round of activity. Given the widespread distrust in the integrity of our elections, I think your counter-productive response shows very poor judgement by casting even more doubt and suspicion on Kronenwetter.

Simply pointing to Chapter 7 of the statutes is may be a "response" as you say, but if that is the case, she might as well have said "it's in the law, somewhere, go find it". In any event, I can accept it for what it is, and final.

Since Bobbi has reportedly gone to numerous clerk training events, I thought I would get her input as to where she got the idea that she can decide to remove poll workers at her discretion and replace them with people not approved by the Village Board. Since this idea has no apparent basis in Chapter 7, it had to come from somewhere.

I have gone through Chapter 7, and I see nothing there to explain how **9 unapproved people** could be hired to work the latest election, while 10 out of the 14 people from the Republican list who were approved to work the polls were disregarded without a known cause, as well as disregarding 5 "unaffiliated" people who apparently were also available. My assumption was that the training material, like the email from the Election Commission, was incomplete and/or misleading.

Perhaps my approach to this problem was all wrong, since the message that I'm getting here from you and Bobbi is that **she does not have** the incomplete or misleading training materials that I was expecting her to

provide. Instead, your response seems to be indicating that she decided on her own to replace Republican-nominated workers with unapproved workers of her choosing, and that she did so without having any such training instructions to base these actions on.

Am I understanding your reply correctly?

That is the statute itself, not the training material. Unless the trainers just said "here are the rules, now go read them". If that were the case, then who would need a training seminar?

I know what the statute says about removing people specifically for not participating in training, or handing out ballots improperly, etc. Is there somewhere in that Chapter that you can more specifically point to that fits what I had asked for?

Bobbi,

I'm picking up this subject again because of continued comments and complaints.

I emailed Ms Coakley at the election commission and she seemed evasive in providing direct answers to my questions, and suggested that I file a complaint instead, which I declined to do, but said I wanted answers to my questions instead.

It ended up that she sent me a link to the training manual for me to find my own answers, and I found what I needed to know, which is that the system needs fixing.

The bad news is that it appears that you improperly hired quite a number of unapproved workers for the latest election, instead of using other approved workers on the list, and this is illegal according to what I have read and what other knowledgeable people have told me.

The good news is that the problem appears to originate with the Election Commission itself and their incomplete or ambiguous training material. Ms. Coakley's misleading answer below is an example. Yes, you can appoint to fill vacancies, but only under limited conditions, and vacancies can only be created under even more limited conditions and very specific reasons.

This same issue is apparently happening in many municipalities, and there seems to be a lot of concern about it.

So, I know you are busy, but in order for me to move forward with getting this issue fixed, either in Madison or at the local level, what I need is for you to find examples that you have from training materials or elsewhere that led you to believe that you could remove workers for reasons outside of those specifically listed in statute, and/or hire other people not approved by the Board. Or, any training materials that would be ambiguous about this issue and contribute to misunderstanding.

Once I have that information to complete my case, I can contact some people in Madison to see what can be done to clarify the rules.

I think we should be pro-active in fixing the problem, before the problem comes to us in the way of complaints and bad press..

Thanks,

Dear Municipal Clerk,

I am writing to follow up on the Marathon County Republican Party Election Inspectors nominations which I submitted to your municipality.

Your preparation of the agenda for the upcoming December meeting of your municipal board/council is probably well underway. I would like to request that all the nominations I submitted in accordance with Wis.Stat. 7.30(4) (b) be appointed to the office of election official by your municipal governing body at that meeting. Please contact me immediately if this is not your intention.

As I am sure you are aware, unless non-appointment is authorized by the Wisconsin Elections Commission, according to Wis.Stat. 7.30(4) (e), your governing body is obligated to appoint the nominees submitted by the Marathon County Republican Party to election inspector positions.

It is my understanding if you would like further clarification on the appointment process, the Wisconsin Elections Commission and/or your municipal attorney could be of assistance to you.

Thank you for your work in election administration and I look forward to partnering with you in staffing our polling locations.

As a general thinker-yes, however, how it works is the clerk gives the list of available election inspectors for each particular election to the Chief election inspectors prior to election day. Because the Chief Election Inspectors run the election on the day of the actual election, it is the practice that the Chief election inspectors develop the election worker schedules themselves. The schedules would exist in an email if they were sent out via email. In the "do not exist files", my best assumption is the clerk was not given a schedule from the chief election inspectors and duties were just assigned the morning of the election. Also keep in mind, those schedules are not always followed as emailed out or assigned the morning of the election and can change at any time due to various circumstances i.e. someone calls in sick, someone gets sick, someone needs to leave early, etc.

Hopefully that answers your questions.

Ken,

The Clerk sends an email out to all election inspectors that were used the year prior and lets them know what their options are as far as notifying the Republican party or the Democratic party that they wish to work the next election cycle and that they are AVIALABLE for all elections and that they will complete training. For those that want to work the next election cycle and choose to be "unaffiliated" they send the clerk an email.

Bobbi,

Thank you for the D and R lists.

If the unaffiliated workers do not send applications, then could you tell me what is the process for finding these workers, and the basis for selecting them for the list of workers for the Board to approve?

For example, are there some kind of ads posted by the Village asking for people to volunteer for these positions?

Thanks,
Ken Charneski

RE: Response to public records request sent via email December 12, 2023

Dear Mr. Charneski:

I received via email your public records request:

"As per your comments last night, can you send me the following information -

- The list of election inspectors sent to you by the Democratic Committee.
- The list of election inspectors sent by the Republican Committee.
- The applications of the unaffiliated people on your list.
- ~~and the emails from the three people from the Republican list who said that they did not want to work the elections."~~

The responses to the first, second and fourth request are attached in this email.

The records for your third request involving applications of the unaffiliated people on the list do not exist. Therefore, that part of your request is denied for the reason that there are no applications.

Denial of a written request is subject to review in an action for mandamus under Wis. Stat. § 19.37(1), or by application to the local district attorney or Attorney General.

Sincerely,

Bobbi Birk-LaBarge, Clerk
