

2020 Spring Election and Presidential Preference Vote Ballot Status as of April 17, 2020

In Person Ballots Cast

Clerks continue to record participation; therefore, insufficient data exists to accurately state the total number of ballots cast in-person at the polls. This reflects the total recorded in WisVote as of 3:44 p.m. on April 17, 2020. After initially entering data in, the system also runs a reconciliation audit where it compares related numbers and flags anomalies; therefore, the numbers below will change as clerks enter data and as they complete the reconciliation process.
