The statements made by Mr. Nickolai, in his complaint dated 2-8-21 are substantially accurate, to the best of my knowledge, with the following clarification. Mr. Nickolai arrived at the school office to submit the candidacy form at approximately 4:50pm on 1-5-21. The school official verbally indicated to Mr. Nickolai that she believed the form needed to be notarized, but accepted the form as presented, with the understanding that she would find out about the need for notarization. After consultation with District's legal counsel and their conversations with individuals at Wisconsin Elections Commission, the White Lake School District Clerk declined to certify Mr. Nickolai's declaration of candidacy form.
