

Attorney Judnic and Witecha,

Thank you for the update.

I have a response to the letters from the Clerk Barbara Koch.

On November 3, 2021 She sent a letter of Sufficiency.

On November 26, 2021 She sent a Letter of Insufficiency which I believe she was told was not proper because of her first letter. (I believe that the information in her letter dated 11/26/2021 goes along with the information I provided to show that the signatures on the petition are not valid.)

On November 29, 2021 she creates a new letter but in looking at the information she provides on the second page that she states "I have no doubt the people signed the recall paperwork and submitted a written sworn statement stating that someone other than the petitioner offered them the paperwork is valid."

I Gary A. Mertig go back to the petition that clearly states that "**the petitioner personally circulated the recall petition and personally obtained each of the signatures on this paper**"

I maintain that enough signatures on the petitions are invalid and request that this information be part of the review.

Thank you for your time and I appreciate the work your commission does. I am available to be at any meeting in person if so requested.

Thank you

Gary A. Mertig
