## Register to Vote

Voters can start the voter registration process on MyVote.wi.gov but will need to mail or deliver their signed, completed voter registration form to their municipal clerk by the registration deadline. Wisconsin does not yet have online voter registration, so all voters are required to submit a signed, paper registration form to their municipal clerk to complete the registration process. Voter registration forms cannot be submitted electronically. Voters must provide a proof of residence document with their voter registration form.

---

### Do I Need to Register to Vote?

If a regular voter is voting for the first time, has changed their Wisconsin voting address, or has changed their name, they will need to submit a new voter registration form. Voters can also be inactivated if they have not voted in four years or have been determined to be ineligible to vote. If your voter status is showing as "inactive" you will need to submit a new registration before you can vote. You may need to register to vote if:

- I am a First-time Wisconsin Voter
- My Address Has Changed
- My Name Has Changed
- I Have Not Voted in 4 Years

## Instructions for Clerks: Regular Voter - MyVote Absentee Ballot Requests

Registered voters with a copy of their valid photo ID on file with their municipal clerk can make absentee ballot requests through MyVote.wi.gov. If a voter is registered and does not have a valid photo ID on file, MyVote will create an absentee application form for the voter and prompt them to send it to their municipal clerk along with a copy of their photo ID.

If a voter is not registered to vote, they will not be able to submit an absentee ballot request through MyVote. The voter will instead be prompted to use the website to register to vote. At the end of the registration process, they will have the option to print and mail their registration form along with a copy of an acceptable proof of residence document. They may also send an absentee ballot application form (accompanied by a copy of their valid photo ID) with their voter registration application. Only military voters can request absentee ballots without registering to vote.

### Absentee Ballot Requests from Regular Voters without a Photo ID on File

Regular voters without a photo ID on file with the municipal clerk can use MyVote to request an absentee ballot. When processing the request, MyVote will use the information in the voter's WisVote record to create a prefilled absentee ballot request form and determine if the voter has a photo ID on file. If the voter does not have a photo ID on file, the voter will be required to provide a copy of their photo ID with their MyVote absentee ballot application. Regular voters must be registered to vote before they can request an absentee ballot.

When a regular voter without a photo ID on file uses MyVote to request an absentee ballot, MyVote will send a notification email with an attached copy of the absentee ballot application and the photo ID to the municipal clerk. It is essential that clerks pay close attention to the notification emails received from MyVote. These emails alert clerks to additional actions that may need to be taken to process a voter's absentee ballot request. The absentee ballot requests received through MyVote should be followed up the same as any other absentee ballot request you receive, via email, fax or by mail. An example of the email notification and the attached PDF absentee ballot application can be found as Appendix A.

**Please note:** The voter's absentee ballot application will not be entered automatically into WisVote. The clerk will need to review the voter's absentee ballot application and photo ID and then enter the absentee ballot application into WisVote. If you are a WisVote relier, log the absentee ballot request information and work with your WisVote provider to confirm the absentee ballot request is entered into WisVote.

When you receive an absentee ballot request from a voter without a photo ID on file you will:

- **Online:** If the military voter would like to receive their ballot online, the clerk will **not** send the voter a ballot. The voter will access their ballot on the MyVote website.

#### Determine the election(s) the voter would like an absentee ballot for.

- **The following elections:** Voters can select to receive ballots for particular elections in the current calendar year. If the voter selects this option, a ballot should be mailed to the voter for the selected election(s).
- **All elections from today's date through the end of the calendar year:** Voters can request to receive absentee ballots for each election in the current calendar year. If the voter selects this option, a ballot should be mailed to the voter for all elections in the current calendar year. Voters may only request ballots in the current year; voters are required to submit new calendar year absentee ballot requests every year.
- **Every election subsequent to today's date:** If the voter selects this option, they are certifying that they are an indefinitely confined voter. If the voter selects this option, a ballot is mailed to the voter for all future elections.

### Signature on the Absentee Ballot Request

Voters are not required to submit a wet signature with an electronic absentee ballot request. There will not be a voter signature on the absentee ballot applications received from MyVote. The absentee applications received from MyVote without voter signatures are acceptable.

### What Additional Absentee Information does the Clerk track in WisVote?

- Absentee Ballot Request Date
- Absentee Ballot Sent Date
- Absentee Ballot Returned Date

Military voters do not need to register to vote. If an unregistered military voter requests an absentee ballot using MyVote, a voter record will be automatically created in WisVote. If MyVote is able to accurately match the voter's new record with an existing record, the system will automatically merge the two voter records in WisVote.

When a military voter uses MyVote to request an absentee ballot, MyVote will automatically create an absentee ballot application in WisVote. The clerk does not need to enter an absentee ballot request in WisVote. After the clerk sends the ballot to voter, the clerk will record the ballot sent date in WisVote.

If the military voter selected to receive their ballot online, the ballot sent date will be automatically updated when the voter accesses and downloads their ballot on MyVote. If the voter chooses not to access their online ballot, then the ballot will not display as sent in WisVote. If the voter does not access their online ballot by 8:00 p.m. on Election Day, the clerk will receive a notification email informing them that the ballot for that voter is no longer outstanding.

When the ballot is returned the clerk will record the ballot returned date. If you are a WisVote relier, please track the absentee ballot using your normal process and work with your WisVote provider to track the information in the system.

## Permanent Overseas Voter - MyVote Absentee Ballot Requests

Permanent overseas voters can use MyVote to request an absentee ballot. Permanent overseas voters are exempt from the photo ID requirement when voting by absentee ballot and do not need to provide a photo ID with their absentee ballot request. Permanent overseas voters need to be registered to vote before they can request an absentee ballot and are only eligible to vote in elections with a federal contest on the ballot.

When a permanent overseas voter uses MyVote to request an absentee ballot, MyVote will send a notification email with an attached PDF of the absentee ballot application to the municipal clerk. It is essential that clerks pay close attention to the notification emails received from MyVote. An example of the email notification and the attached absentee application can be found as Appendix A.

---

When you receive an absentee ballot request from a permanent overseas voter you will:

### 1. Review the Absentee Ballot Application

#### Identify the Voter Type

Clerks may receive absentee ballot requests from different voter types. Review section 4 of the absentee application form to confirm the request is for a permanent overseas voter.

#### Determine how the voter would like to receive their absentee ballot.

Review section 5 of the absentee application form to determine how the permanent overseas voter would like to receive their ballot. Permanent overseas voters can receive their ballot by mail, email, fax or online.

- **Mail:** if the permanent overseas voter would like to receive their ballot by mail, the clerk will mail the ballot and absentee instructions to the voter at the address provided.
- **Fax:** if the permanent overseas voter would like to receive their ballot by fax, the clerk will fax the ballot and absentee instructions to the voter at the fax number provided.
- **Email:** if the permanent overseas voter would like to receive their ballot by email, the clerk will email the ballot and absentee instructions to the voter at the email address provided.
- **Online:** if the permanent overseas voter would like to receive their ballot online, the clerk will **not** send the voter a ballot. The voter will access their ballot on the MyVote website.

#### Determine the election(s) the voter would like an absentee ballot for.

Voters may only request ballots in the current year; voters are required to submit new calendar year absentee ballot requests every year.

- **Every election subsequent to today's date:** If the voter selects this option, they are certifying that they are an indefinitely confined voter. If the voter selects this option, a ballot is mailed to the voter for all future elections.

#### **Signature on the Absentee Ballot Request**

Voters are not required to submit a wet signature with an electronic absentee ballot request. There will not be a voter signature on the absentee ballot applications received from MyVote. The absentee applications received from MyVote without voter signatures are acceptable.

#### **What Additional Absentee Information does the Clerk Track in WisVote?**

- Absentee Ballot Request Date
- Absentee Ballot Sent Date
- Absentee Ballot Returned Date

When a permanent overseas voter uses MyVote to request an absentee ballot, MyVote will automatically create an absentee ballot application in WisVote. The clerk does not need to enter the absentee ballot request into WisVote.

After the clerk sends the ballot to voter, the clerk will record the ballot sent date in WisVote. If the permanent overseas voter selected to receive their ballot online, the ballot sent date will be automatically updated when the voter accesses and downloads their ballot on MyVote. If the voter chooses not to access their online ballot, then the ballot will not show as sent in WisVote. If the voter does not access their online ballot by 8:00 p.m. on Election Day, the clerk will receive a notification email informing them that the ballot for that voter is no longer outstanding.

When the ballot is returned the clerk will record the ballot returned date. If you are a WisVote relier, please track the absentee ballot using your normal process and work with your WisVote provider to track the information in the system.

## Indefinitely Confined Voter - MyVote Absentee Ballot Request

Indefinitely confined voters can use MyVote to request an absentee ballot. If the voter selects that they are indefinitely confined on their absentee request, then they are exempt from the photo ID requirement. Indefinitely confined voters do not need to provide a photo ID with their absentee ballot request, but do need to be registered to vote to submit the absentee request.

When an indefinitely confined voter uses MyVote to request an absentee ballot, MyVote will send a notification email with an attached PDF of the absentee ballot application to the municipal clerk. It is essential that clerks pay close attention to the notification emails received from MyVote. An example of the email notification and the attached absentee application can be found as Appendix A.

---

When you receive an absentee ballot request from an indefinitely confined voter you will:

### 1. Review the Absentee Ballot Application

#### Identify the Voter Type

Clerks may receive absentee ballot requests from different voter types. Review section 4 of the application form to determine if the request is for a regular, military or permanent overseas voter.

#### Determine how and where the voter would like to receive their absentee ballot.

Review the voter information and mailing address fields to determine where to mail the absentee ballot. Regular voters, including indefinitely confined voters and voters who are temporarily living overseas can only receive their ballot **by mail**. Only military and permanent overseas voters can receive their ballot by email, fax or online, in addition to by mail. If an indefinitely confined voter requests an absentee ballot delivery method other than by mail, you should contact the voter to clarify that they can only receive a ballot by mail.

#### Determine the election(s) the voter would like an absentee ballot for.

- **Every election subsequent to today's date:** If the voter selects this option, they are certifying that they are an indefinitely confined voter. Voters are sent ballots for every future election.

#### Signature on the Absentee Ballot Request

Voters are not required to submit a wet signature with an electronic absentee ballot request. There will not be a voter signature on the absentee ballot applications received from MyVote. The absentee applications received from MyVote without voter signatures are acceptable.

#### What Additional Absentee Information does the Clerk Track in WisVote?

- Absentee Ballot Request Date
- Absentee Ballot Sent Date
- Absentee Ballot Returned Date

When an indefinitely confined voter uses MyVote to request an absentee ballot, MyVote automatically creates an absentee ballot application in WisVote. The clerk does not need to enter the absentee ballot application into WisVote. After the clerk sends the ballot to voter, the clerk will record the ballot sent date in WisVote. When the ballot is returned the clerk will record the ballot returned date. If you are a WisVote relier, please track the absentee ballot using your normal process and work with your WisVote provider to track the information in the system.

## Hospitalized Voters MyVote Absentee Ballot Request

Hospitalized voters can start the absentee application process on MyVote. If the voter selects that they are hospitalized on their MyVote absentee request they will be given detailed instructions about appointing an agent and the process to obtain the ballot from the clerk's office. Clerks will not receive a notification from MyVote about a hospitalized voter's absentee request. The absentee request will be delivered to the clerk in person by the voter's agent.

The agent must provide a copy of both the voters and his or her photo ID. The municipal clerk should ensure that the photo ID for the voter matches the information on the absentee request before they issue an absentee ballot to the agent.

## Notifications

On the following page, please find an example of the email that clerks will receive when a voter in their municipality requests an absentee ballot using MyVote.

The email notification will be sent to the primary email address that the municipal clerk has on file with the G.A.B. in WisVote. If there is one other email address where the clerk would rather have the notifications sent to, the clerk should contact the G.A.B. helpdesk and ask them to enter a secondary email address into the clerk contact record in WisVote. This email will only be used for MyVote notifications.

**Sent:** Tuesday, June 14, 2016 1:26 PM  
**To:** Wolfe, Meagan - GAB  
**Subject:** Absentee Ballot Request - Regular Voter  
**Attachments:** AbsenteeBallotRequest.pdf

An absentee ballot request has been received from MyVote from a voter in your municipality! Please review the attached request and pay particular attention to the type of voter. The request may be from a military or a permanent overseas voter. The voter making this request is not required to provide a photo ID or has already provided a photo ID with a previous absentee ballot request.

Record and process the attached absentee ballot request received from MyVote the same way as an absentee ballot request received by email.

Open the attached absentee ballot application and pay particular attention to the following sections of the form.

**SECTION 4.** Identifies if the voter is a military or permanent overseas voter. Military and permanent overseas voters are eligible to receive their ballot electronically. Military voters do not need to be registered to vote to request and receive an absentee ballot. The information on the absentee ballot form can be used to create a voter record in WisVote. Permanent overseas voters are required to register to vote. Permanent overseas voters are only eligible to vote in federal contests.

**SECTION 5.** Identifies how the voter wants to receive their absentee ballot. All regular voters receive absentee ballots by mail. Only military and permanent overseas voters can receive absentee ballots by mail, email, or online through MyVote. Please follow the guidelines below:

- **MAIL:** If the voter has selected to receive their ballot by mail (or they are a regular voter), the **MUNICIPAL CLERK MUST MAIL THE VOTER A BALLOT.** Once the ballot is mailed to the voter, record the ballot sent date in WisVote. If you are a WisVote relier, log the date the ballot is mailed and forward the information to your WisVote provider for entry into WisVote.
- **ONLINE:** If the military or permanent overseas voter has selected to receive their ballot online, the **MUNICIPAL CLERK DOES NOT NEED TO SEND THE VOTER A BALLOT.** The voter will receive their ballot online through the MyVote website. The online ballot will be recorded as issued and the sent date updated in WisVote when the voter chooses to download their online ballot. WisVote users do not need to manually record the ballot sent date in WisVote.
- **EMAIL:** If the military or permanent overseas voter has selected to receive their ballot by email, the **MUNICIPAL CLERK MUST EMAIL THE VOTER A BALLOT.** Municipalities should receive a PDF of the ballot from their county prior to the deadline to send absentee ballots. [The uniform instructions for military or permanent overseas voters](#) explains what should be included with an emailed ballot. Once the ballot is emailed to the voter, record the ballot sent date in WisVote. If you are a WisVote relier, log the date the ballot is emailed and forward to information to your WisVote provider for entry into WisVote.
- **FAX:** If the military or permanent overseas voter has selected to receive their ballot by fax, the **MUNICIPAL CLERK MUST FAX THE VOTER A BALLOT.** [The uniform instructions for military or permanent overseas voters](#) explains what should be included with an faxed ballot. Once the ballot is faxed to the voter, record the ballot sent date in WisVote. If you are a WisVote relier, log the date the ballot is faxed and forward the information to your WisVote provider for entry into WisVote.

**SECTION 6.** Identifies the election(s) the voter would like to receive an absentee ballot for. If the voter has requests to receive ballots for a particular election(s), send them a ballot for only the elections they have indicated. If the voter has requested to receive ballots for all elections in the calendar year, send the voter a ballot for all elections through 12/31 of the current year. If the voter requested to receive ballots for every election subsequent to today's date and certifies that they are indefinitely confined because of age, illness, infirmity or disability, send the voter a ballot for all future elections.

If you have any other questions on how to process this absentee ballot request, please contact the G.A.B. at [gab@wi.gov](mailto:gab@wi.gov) or at (608) 266-8005.

## MyVote Initiated Voter Registration Applications

---

### Regular Voters

Regular voters can start the voter registration process using MyVote.wi.gov. To complete the registration process the voter must print, sign and deliver the voter registration application to their municipal clerk along with a proof of residence document.

When a municipal clerk receives a MyVote initiated voter registration application from a voter by mail, in-person or at the polls on Election Day, they should process the voter registration the same as any other voter registration application. The voter registration applications initiated from MyVote will have the MyVote logo to identify them, however, because WisVote will search both existing voter records and MyVote pending applications the MyVote initiated voter registrations can be entered from the Voter Registration tile.

The benefit to the clerk of the voter using MyVote to start the voter registration process is that the data entry in WisVote for the application will already be complete. The clerk will still need to review the voter registration and verify the form of proof of residence before completing and approving the voter registration in WisVote.

If the clerk does not use WisVote to process voter registrations, they should process or reject the MyVote voter registration application the same as any other voter registration application. WisVote reliers should work with their WisVote providers to confirm the voter registrations are entered into WisVote.

### Permanent Overseas Voters

Permanent overseas voters are required to register to vote before receiving an absentee ballot. However, they do not need to provide proof of residence with their voter registration. Permanent Overseas voters may start the voter registration process online at MyVote.wi.gov.

After the voter has completed the steps on MyVote they will be given detailed instructions on how to return the completed registration form to their municipal clerk. Permanent overseas voters will most likely be returning their registration application by mail, so the deadline to postmark their application will be prominent.

### Military Voters

Military voters are not required to register to vote however, many military voters will submit their voter information with their absentee ballot request. If there is not a voter record in WisVote for a military voter, use the voter information on the absentee ballot request to create a voter registration record for the voter in WisVote.

If a military voter would like to enter their voter information or update their voter information on MyVote, they may do so without registering to vote. Once the military voter has entered their new information or updated their information on MyVote, the clerk will receive an email notification. Please see Appendix A for an example of the notification.

## MyVote Pending Applications in WisVote

When a voter completes a voter registration form on MyVote.wi.gov, a MyVote Pending Application is created in WisVote. The voter registration application will remain pending in WisVote until the voter has printed, signed and delivered the voter registration form, along with an acceptable form of proof of residence to their municipal clerk. WisVote will automatically deactivate a MyVote pending application after 45 days. The automatic deactivation will only include MyVote registration applications that have not been processed and approved.

## MyVote Data Quality

MyVote is the voter facing portal into the WisVote system. MyVote depends on the information that is entered into WisVote by municipal and county clerks. The information that is entered into WisVote is the information voters will see when accessing their records on MyVote. It is very important that voters be able to find the information they need to participate in the voting process. Therefore, it is critical that information is entered into WisVote accurately and timely. This section is intended to provide an overview of the connections between WisVote and MyVote to ensure the quality of data that voters access.

### Find My Polling Place

Voters can use MyVote.wi.gov to find their polling place by searching for their address. A voter will only be able to find their polling place on MyVote if the polling place for the address is assigned to a reporting unit in the election plan for the current election type in WisVote. An election plan is a reusable template for a specific election type that lists all of the reporting units within a municipality and their assigned polling place locations. The reporting units in a municipality may be single wards or a combination of wards; and may change from election to election. Prior to creating an election plan, all polling place locations should be set up in WisVote. For more information on how to set up polling place locations and update election plans in WisVote, please refer to Chapter 4 of the WisVote manual.

In addition to election plans, the accuracy of the MyVote find my polling place feature relies on the district combination assigned to the voter's address in WisVote. All active addresses must be assigned to the correct district combination in WisVote to ensure that the voter goes to the correct polling place. For more information on WisVote address management, please refer to Chapter 7 of the WisVote manual.

### What's on My Ballot

Voters can use MyVote.wi.gov to view the contests and candidates on their ballot for upcoming elections. Military and permanent overseas voters can also access their ballot online through MyVote. Voters can only preview their ballot or access their online ballot on MyVote if the contests and candidates are entered into WisVote and the Contests Complete and Candidates Complete checkpoints have been checked for the municipalities, counties, and the state. Therefore, once ballots have been finalized, please make sure that the contests and candidates are checked in WisVote to be use that voters have access to a complete sample ballot and that military voters are able to access their online ballot.

Another important note, the accuracy of a voter's sample ballot on MyVote relies on the district combination assigned to the voter's address in WisVote. All active addresses must be assigned to the correct district combination in WisVote to ensure that the voter is shown the correct sample ballot.

## Find My Elected Officials

Voters can use MyVote.wi.gov to view a list of their current elected officials. It is important to note that a voter can only see a list of their elected officials if the elected official record has been entered into WisVote. County clerks are responsible for maintaining elected official information for county, joint municipal court and school board contests. Municipal clerks are responsible for entering elected official information for municipal and sanitary district contests. The Wisconsin Elections Commission is responsible for entering elected official information for federal and state contests. An incomplete list of elected officials will be displayed on MyVote if the information is not kept up-to-date in WisVote. For instructions on entering elected officials into WisVote, please refer to Chapter 4, Section 4: Office Positions of the WisVote manual.

## View My Voting Activity

Voters can use MyVote.wi.gov to access their voter profile and view the elections they have participated in. A voter can check their current registration information, view information about their next election, view their polling place information, update the name or address on their voter registration, request an absentee ballot, track the status of their absentee ballot, track provisional ballots, and find their elected officials on the My Voter Information page.

A voter will only be able to view their voting activity on MyVote if the clerk has entered the voter's information into WisVote. Absentee ballot information should be entered into WisVote in accordance with the law so that MyVote reflects accurate absentee ballot status information. After the election, voter participation and Election Day registrations should also be entered into WisVote in a timely and accurate manner. MyVote will display the status of a voter's registration and the elections a voter has participated in and the means by which the voter cast their ballot (at the polls, in-person absentee, or by mail absentee) for each election.
