Electronic Conversion of Election Records

The Legislature, in Wis. Stat. § 7.23, established a schedule for the destruction of election materials, but it did not provide in that statute, or in any other elections statute, a schedule or timetable for the conversion of elections records from “hard-copy” to electronic format or to microfiche.

The statute that authorizes the conversion of hard copies, Wis. Stat. § 19.21(4)(c), reads as follows:

(c) Any local governmental unit or agency may provide for the keeping and preservation of public records kept by that governmental unit through the use of microfilm or another reproductive device, optical imaging or electronic formatting. A local governmental unit or agency shall make such provision by ordinance or resolution. Any such action by a subunit of a local governmental unit or agency shall be in conformity with the action of the unit or agency of which it is a part. Any photographic reproduction of a record authorized to be reproduced under this paragraph is deemed an original record for all purposes if it meets the applicable standards established in §§16.61 (7) and 16.612. This paragraph does not apply to public records kept by counties electing to be governed by Chapter 228.

At its July 18, 2007 meeting, the former State Elections Board formally adopted the recommendation that counties or municipalities who convert their elections or campaign finance records from paper or “hard-copy” to microfilm or electronic format must retain the “hard copies” of those records for at least two years after the election immediately following the creation of those records, or for that period of time requested by the district attorney for that county or whose jurisdiction includes that municipality.
